The only similarity that this transmission shares to its Tremec counterparts is a ribbed casing and integrated bell housing design.

Complete Mustang Manual Transmission Guide | Steeda

A manual transmission is a multi-speed motor vehicle transmission system, where gear changes require the driver to manually select the gears by operating a gear stick and clutch. Early automobiles used sliding-mesh manual transmissions with up to three forward gear ratios. Since the 1950s, constant-mesh manual transmissions have become increasingly commonplace and the number of forward ratios has increased to 5-speed and 6-speed manual transmissions for current vehicles. The alternative to a man
