Book Review: *The Bottom Billion*. If you only read one book on development economics, this is it. The bottom billion has been named a classic by major publications such as *The Economist*, and is on every booklist outlining the most important books in development. I believe this book is important when it comes to development, largely because it is accessible. In the preface, Collier, mentions how ...

The book's discourse is powerful – Collier has aimed to write a work that can be read by any person who is concerned about the current or future situation of capitalism. Rather than applying ready-to-use ideological or populist solutions from either the left or right, Collier instead tries to cover the 'hard centre'.

Richard Collier has never met the woman of his dreams. And now, at thirty-six, it might be too late, as he is diagnosed with an inoperable brain tumor. As a screenwriter he should know better than most how dreams are created out of thin air, yet in his vulnerable state of mind he is not immune to flights of fancy.

I was delighted to get a review copy of this book and overall I really enjoyed it. However, I do think the blurb is a little misleading: the "before it's too late" line gives the impression that everyone at the retirement community is somehow in mortal peril or this is some sort of thriller. And it most definitely is not! This is a cosy mystery which is more about the retirement village ...
