How Violence Against a Mother Shapes Children as They Grow

The Glass Castle

A Memoir *Simon and Schuster*

Journalist Walls grew up with parents whose ideals and stubborn nonconformity were their curse and their salvation. Rex and Rose Mary and their four children lived like nomads, moving among Southwest desert towns, camping in the mountains. Rex was a charismatic, brilliant man who, when sober, captured his children's imagination, teaching them how to embrace life fearlessly. Rose Mary painted and wrote and couldn't stand the responsibility of providing for her family. When the money ran out, the Walls retreated to the dismal West Virginia mining town Rex had tried to escape. As the dysfunction escalated, the children had to fend for themselves, supporting one another as they found the resources and will to leave home. Yet Walls describes her parents with deep affection in this tale of unconditional love in a family that, despite its profound flaws, gave her the fiery determination to carve out a successful life. -- From publisher description.

Writings in the Sand *Createspace Independent Publishing Platform*
Most people would assume there must be something wrong with a mother who loses custody. That's because the public is largely unaware of research that proves family courts get a large majority of abuse cases dangerously wrong. Most cases are settled more or less amicably so the problem is the 3.8% of cases that require trial and often much more. A large majority involve domestic violence in which the worst abusers manipulate courts to regain control when their victims try to leave. The courts developed practices to respond to domestic violence in the 1970s at a time when no research was available. Subsequent research establishes that most of the standard practices work poorly for children. Many professionals benefit financially from the outdated practices and courts have been reluctant to examine long-time practices for fear of admitting how many children they have harmed. Scientific research is now clear that standard practices tilt courts towards disbelieving and minimizing true reports of abuse. The failure to integrate current research makes it hard for judges to protect children and a recent U.S. Department of Justice study demonstrates the courts are getting a large majority of abuse cases wrong. In this book, Ruth Collins illustrates how these failures impact real people. I hope the knowledge will make it intolerable for the public to look away while family courts allow abusers to destroy so many lives. ~Barry Goldstein, domestic violence author, speaker, and advocateThere is a special beauty and importance to relationships between mothers and their children; there is a special and extraordinary cruelty in the abusive man who attempts to break or weaken the mother-child bond, whether by turning children against their mother, by harming the children physically, sexually or psychologically, or by attempting to take custody of the children away from her. Protective mothers are some of our society's most invisible and most important heroes, even while they are treated so often, in a bitter irony, as villains. ~Lundy Bancroft, domestic violence expert, author, and advocate

Talking about Domestic Abuse

A Photo Activity Workbook to Develop Communication Between Mothers and Young People *Jessica Kingsley Publishers*
Talking about Domestic Abuse is an activity pack for children of nine years and above and adolescents where families have experienced domestic abuse, to help and encourage them to open up to their mothers about their distressing experiences. Based on the authors' work with families who have experienced domestic abuse, the activities are designed around four important themes: building self-esteem; naming feelings; facilitating communication between mothers and children; and talking about personal experiences, including domestic violence, and are accompanied by photographs which act as prompts for discussion. The authors explain the need of young people to communicate with their parents about painful memories. They also establish practical 'ground rules' on how mothers can enter into that communication successfully and how to make the most of the activities provided. Further information is also given on support services that are available to families coping with domestic abuse. This will be an essential tool for families including young people who have lived through domestic abuse, as well as social workers and other professionals working with them.

Daughter Detox

Recovering from an Unloving Mother and Reclaiming Your Life
A self-help book based in science, the result of more than a decade of research, Daughter Detox offers the daughters of unloving mothers vital information, guidance, and real strategies for healing from childhood experiences, and building genuine self-esteem. Writer Peg Streep lays out seven distinct but interconnected stages on the path to reclaim your life from the effects of a toxic childhood: DISCOVERY, DISCERNMENT, DISTNGUISH, DISARM, RECLAIM, REDIRECT, and RECOVER. Each step is clearly explained, and richly detailed with the stories of other women, approaches drawn from psychology and other disciplines, and unique exercises. The book will help the reader tackle her own self-doubt and become consciously aware of how her mother's treatment continues to shape her behavior, even today. The message of the book is direct: What you experienced in childhood need not continue to hold you back in life. What was learned can be unlearned with effort. The book begins with DISCOVERY, opening up the reader's understanding of how she has been wounded and influenced by her mother's treatment. Recognizing the eight toxic maternal behaviors-dismissive, controlling, emotionally unavailable, unreliable, self-involved or narcissistic, combative, enmeshed, or role-reversed-lays the foundation for the daughter's awareness of how her way of looking at the world, connecting to others, and ability to manage stress were affected. DISCERNMENT delves

into the patterns of relationship in her family of origin and how they played a part in her development, and then shifts to looking closely at how the daughter adapted to her treatment, either silencing or losing her true self in the process. Next up is DISTINGUISH, seeing how the behavioral patterns we learned in childhood animate all of our relationships in the present with lovers and spouses, relatives, friends, neighbors, and colleagues. The act of distinguishing allows us to see why so many of us end up in unsatisfying relationships, chose the wrong partners, or are unable to develop close friendships. Active recovery begins with DISARM as the daughter learns how to disconnect unconscious patterns of reaction and behavior and substitute actions that will foster the growth of self-esteem. Understanding the triggers that set us off, the cues that put us on the defensive, and the default positions of blaming ourselves and making excuses for other people's toxic behavior are addressed, as are unhealthy behaviors such as rumination, rejection sensitivity, and more. RECLAIM is the stage at which the reader begins to actively make new choices, preparing herself so that she can live the life she desires by seeing herself as having agency and being empowered. Making new choices and figuring out how to manage her relationship to her unloving or toxic mother is the focus of REDIRECT. There are stories to inspire and challenge your thinking, exercises that show you how to swap out self-criticism for self-compassion, guidance on how to use journaling as a tool of self-discovery and growth, and advice on goal setting.Finally, RECOVER challenges the reader to come up with a new definition of what it means to heal, suggests tools to overcome the obstacles she places in her own way, and strategies to become the best, most authentic version of herself.

License to Parent

How My Career As a Spy Helped Me Raise Resourceful, Self-Sufficient Kids *Penguin*

"If Mr. and Mrs. Smith had kids and wrote a parenting book, this is what you'd get: a practical guide for how to utilize key spy tactics to teach kids important life skills--from self-defense to effective communication to conflict resolution." --Working Mother Christina was a single, successful CIA analyst with a burgeoning career in espionage when she met fellow spy, Ryan, a hotshot field operative who turned her world upside down. They fell in love, married, and soon they were raising three children from his first marriage, and later, two more of their own. Christina knew right away that there was something special about the way Ryan was parenting his kids, although she had to admit their obsession with surviving end-of-world scenarios and their ability to do everything from archery to motorcycle riding initially gave her pause. More than that, Ryan's kids were much more security savvy than most adults she knew. She soon realized he was using his CIA training and field experience in his day-to-day child-rearing. And why shouldn't he? The CIA trains its employees to be equipped to deal with just about anything. Shouldn't parents strive to do the same for their kids? As Christina grew into her new role as a stepmom and later gave birth to their two children, she got on board with Ryan's unique parenting style--and

even helped shape it using her own experiences at the CIA. Told through honest and relatable parenting anecdotes, Christina shares their distinctive approach to raising confident, security-conscious, resilient children, giving practical takeaways rooted in CIA tradecraft along the way. License to Parent aims to provide parents with the tools necessary to raise savvier, well-rounded kids who have the skills necessary to navigate through life.

After severely injuring Peter Driscal in an empty parking lot, mischief-maker Cole Matthews is in major trouble. But instead of jail time, Cole is given another option: attend Circle Justice, an alternative program that sends juvenile offenders to a remote Alaskan Island to focus on changing their ways. Desperate to avoid prison, Cole fakes humility and agrees to go. While there, Cole is mauled by a mysterious white bear and left for dead. Thoughts of his abusive parents, helpless Peter, and his own anger cause him to examine his actions and seek redemption—from the spirit bear that attacked him, from his victims, and, most importantly, from himself. Ben Mikaelson paints a vivid picture of a juvenile offender, examining the roots of his anger without absolving him of responsibility for his actions, and questioning a society in which angry people make victims of their peers and communities. Touching Spirit Bear is a poignant testimonial to the power of a pain that can destroy, or lead to healing. A strong choice for independent reading, sharing in the classroom, homeschooling, and book groups.

When Your Kid Is Hurting

Helping Your Child through the Tough Days *Revell*

Children today live in an unpredictable, disruptive, and often violent world. Many of them live in two different homes with different sets of expectations. They face bullying at school and online. They hear news of school shootings, and racially or religiously motivated violence. They may have lost a friend or a loved one. As parents, the impulse to protect our children is strong, but that very protection can end up handicapping them for life. Rather than seek to save them from the hard things, parents must teach their kids how to cope with and rise above their problems. In one of his

most important books to date, internationally known psychologist and bestselling author Dr. Kevin Leman shows parents how to - be good listeners - tell the truth, even when it's difficult - find balance between being protective and being overprotective - approach hurt and injustice as a learning experience rather than fostering a victim mentality - and much more Whether your child is dealing with a difficult family situation, bullies, the loss of friends, the death of a loved one, discrimination, abuse, a teen pregnancy, or even just trying to make sense of what they see in the news, this compassionate and practical book will help parents equip them to process, learn from, and rise above their situation.

Understanding the Borderline Mother

Helping Her Children Transcend the Intense, Unpredictable, and Volatile Relationship *Rowman & Littlefield*
The first love in our lives is our mother. Recognizing her face, her voice, the meaning of her moods, and her facial expressions is crucial to survival. Dr. Christine Ann Lawson vividly describes how mothers who suffer from borderline personality disorder produce children who may flounder in life even as adults, futilely struggling to reach the safety of a parental harbor, unable to recognize that their borderline parent lacks a pier, or even a discernible shore. Four character profiles describe different symptom clusters that include the waif mother, the hermit mother, the queen mother, and the witch. Children of borderlines are at risk for developing this complex and devastating personality disorder themselves. Dr. Lawson's recommendations for prevention include empathic understanding of the borderline mother and early intervention with her children to ground them in reality and counteract the often dangerous effects of living with a "make-believe" mother. Some readers may recognize their mothers as well as themselves in this book. They will also find specific suggestions for creating healthier relationships. Addressing the adult children of borderlines and the therapists who work with them, Dr. Lawson shows how to care for the waif without rescuing her, to attend to the hermit without feeding her fear, to love the queen without becoming her subject, and to live with the witch without becoming her victim.
