Transference-focused psychotherapy is more efficacious than

treatment by experienced community psychotherapists in the domains of borderline symptomatology, psychosocial functioning, and personality organisation. Moreover, there is preliminary evidence for a superiority in the reduction of suicidality and need for psychiatric in-patient ...

Transference-focused psychotherapy v. treatment by ...

With this understanding of personality disorders and BPD described in another section of this website, our treatment model, Transference-focused Psychotherapy (TFP), logically follows. This twice-per-week individual psychotherapy combines many of the elements described in the Guidelines for the Treatment of Borderline Personality issued by the American Psychiatric Association with a deep understanding of mental processes.

Transference-Focused Psychotherapy (TFP) personality ...

Transference focused psychotherapy is a highly structured, twice-weekly modified psychodynamic treatment based on Otto F. Kernberg's object relations model of borderline personality disorder. It views the individual with borderline personality organization as holding unreconciled and contradictory internalized representations of self and significant others that are affectively charged. The defense against these contradictory internalized object relations leads to disturbed relationships with oth

Transference focused psychotherapy - Wikipedia

A bout Transference-Focused Psychotherapy (TFP) Our approach

to personality disorder treatment and research is based on the understanding of personality disorders in general and BPD in specific that is described on this page. Transference-Focused Psychotherapy is grounded in contemporary psychoanalytic theory since we believe that psychoanalytic thinking has much to offer in terms of understanding and treating personality disorders.
