You fear you won't make it through. We all do. We fear that the depression will never lift, the yelling will never stop, the pain will never leave. In the pits, surrounded by steep walls and aching reminders, we wonder: Will this gray sky ever brighten? This load ever lighten? In You'll Get Through This, pastor and New York Times best-selling author, Max Lucado offers sweet assurance. "Deliverance is to the Bible what jazz music is to Mardi Gras: bold, brassy, and everywhere." Max reminds readers God doesn't promise that getting through trials will be quick or painless. It wasn't for Joseph--tossed in a pit by his brothers, sold into slavery, wrongfully imprisoned, forgotten and dismissed--but his Old Testament story is in the Bible for this reason: to teach us to trust God to trump evil. With the compassion of a pastor, the heart of a storyteller, and the joy of one who has seen what God can do, Max explores the story of Joseph and the truth of Genesis 50:20. What Satan intends for evil, God redeems for good.

The amygdala acts as a primal response, and oftentimes, when this part of the brain processes fear, you may not even understand why you are afraid. By comparison, the cortex is the center of “worry.” That is, obsessing, ruminating, and dwelling on things that may or may not happen. In the book, Pittman and Karle make it simple by offering specific examples of how to manage fear by tapping into both of these pathways in the brain. As you read, you’ll gain a greater understanding how anxiety is created in the brain, and as a result, you will feel empowered and motivated to overcome it. The brain is a powerful tool, and the more you work to change the way you respond to fear, the more resilient you will become. Using the practical self-assessments and proven-effective techniques in this book, you will learn to literally “rewire” the brain processes that lie at the root of your fears.

Yet even as letters and phone calls from readers around the world flooded in, thanking her for helping to improve--and in some cases to save--their lives, Dr Claire Weekes was dismissed as underqualified and overly populist by the psychiatric establishment. Just who was this woman? Claire Weekes was driven by a restless and unconventional mind that saw her become the first woman to earn a Doctor of Science degree at Australia's oldest university, win global plaudits for her research into evolution, and take a turn as a travel agent, before embarking on a career in medicine. But it was a mistaken diagnosis of tuberculosis that would set her heart racing and push her towards integrating all she'd learned into a practical treatment for anxiety--a tried-and-true method now seen as state-of-the-art 30 years after her death. This book is the first to tell her remarkable story.

She paints a powerful picture of the challenge of dealing with claustrophobia on a daily basis, looking at how people manage, whether it is possible to overcome the anxiety, and what others can do to help friends, family and colleagues to cope.She even manages to find the humour in what can be a truly frightening experience, and controversially, presents claustrophobia not simply as an irrational response, but as a deeply human rejection of being electronically controlled in the confined spaces of an increasingly technological world. She also claims that many businesses are losing customers through not understanding people's fear of confined spaces ...

The Daily Stoic *Penguin*

From the team that brought you The Obstacle Is the Way and Ego Is the Enemy, a beautiful daily devotional of Stoic meditations—an instant Wall Street Journal and USA Today Bestseller. Why have history's greatest minds—from George Washington to Frederick the Great to Ralph Waldo Emerson, along with today's top performers from Super Bowl-winning football coaches to CEOs and celebrities—embraced the wisdom of the ancient Stoics? Because they realize that the most valuable wisdom is timeless and that philosophy is for living a better life, not a classroom exercise. The Daily Stoic offers 366 days of Stoic insights and exercises, featuring all-new translations from the Emperor Marcus Aurelius, the playwright Seneca, or slave-turned-philosopher Epictetus, as well as lesser-known luminaries like Zeno, Cleanthes, and Musonius Rufus. Every day of the year you'll find one of their pithy, powerful quotations, as well as historical anecdotes, provocative commentary, and a helpful glossary of Greek terms. By following these teachings over the course of a year (and, indeed, for years to come) you'll find the serenity, self-knowledge, and resilience you need to live well.
