Summary While clearly maturing and beyond the Peak of Inflated Expectations, cloud computing continues to be one of the most hyped subjects in IT. We look at the different aspects of the topic

and where the technologies are on Gartner's Hype Cycle for Cloud Computing, 2012.

Hype Cycle for Cloud Computing, 2012 - Gartner

Over the past several years, companies have gradually been moving their data and work processes to the cloud. Some have been reluctant to make this move, though, most often because of concerns about cloud security. Even for the most avid supporters of cloud-based work, security is an important issue. And accordingly, Gartner has a Hype Cycle chart for visualizing where different technologies in cloud security currently lie in terms of the attention they're getting.
