The Ever After *Simon and Schuster*

Most people aren't very comfortable in the woods, but the woods of Briery Swamp fit May Bird like a fuzzy mitten. There, she is safe from school and the taunts and teases of kids who don't understand her. Hidden in the trees, May is a warrior princess, and her cat, Somber Kitty, is her brave guardian. Then May falls into the lake. When she crawls out, May finds herself in a world that most certainly does not feel like a fuzzy mitten. In fact it is a place few living people have ever seen. Here, towns glow blue beneath zipping stars and the people -- people? -- walk through walls. Here the Book of the Dead holds the answers to everything in the universe. And here, if May is discovered, the

horrifyingly evil Bo Cleevil will turn her into nothing. May Bird must get out. Fast. Within these pages, Jodi Lynn Anderson shares with us the beginning of May Bird's daring journey into the Ever After, a haunting place where true friends -- and one terrible foe -- await her on every corner.

May Bird, Warrior Princess *Simon and Schuster*

At Hog Wallow Middle School, May Ellen Bird was always slightly invisible. Then she went on a long trip to the land of the dead, where ghost towns glowed blue in the dark dusk and spooky specters dwelled in cities on the Dead Sea. Back on Earth at last, May and her hairless cat, Somber Kitty, are

now famous, their faces plastered across souvenirs and sportswear that read "May Bird Went to the Land of the Dead and All She Brought Me Was This Lousy T-Shirt." But, finally in the spotlight, May feels more than ever that she doesn't belong. Every night she sits by her bedroom window, gazing at the sky and dreaming of another place, wishing -- despite herself -- to be back among the ghosts. And then one night she gets her heart's desire in a way she would never have wished for. Only the Ever After isn't anything like the world May left behind three years ago. The spirits have vanished, and the towns -- once full of every manner of things that go bump in the

night -- are deserted. Evil Bo Cleevil has made the Ever After as cold as his own frigid soul, and put up a bunch of tacky malls to boot. Now, with her friends missing and enemies all around her, May must find her way to the edge of the universe, where night swallows the stars, where allies are few and often have bad breath, where endings can also be beginnings, and where the truest hero lurks in the unlikeliest of souls. But Bo Cleevil's got one last trick up his sleeve -- one that no one on Earth is ready for. With the worlds of the living and the dead in the balance, will May's courage fail her one last time? Or will she finally become the warrior she was always meant to be?

Among the Stars*Simon and Schuster*

May Bird has always been a bit. . . different. While most of her classmates were riding their bikes, she was running around the West Virginia woods, dressed as a warrior princess with her hairless cat at her side. And while most of her classmates were spending their summer vacations going to birthday parties, May was discovering a mysterious lake hidden among the trees -- and stumbling into the land of ghosts, the Ever After. A fearful and fantastic realm located among the stars, the Ever After is full of phantoms and poltergeists, ghouls and goblins, and all manner of things that go bump in the night. And if May is to find

her way out again, she must reach the mysterious Lady of North Farm, who lives in a cold, forbidding land that even the spooks find spooky. With her courageous (yet melancholy) kitty and a ragtag group of spectral friends she's picked up along the way, May is determined to escape the Afterlife. But her travels will bring her face-to-face with her worst fears: a devious pursuer; a truly horrifying dance party under the sea, hosted by the Bogey (aka Boogie) Man; and the Ever After's terrible ruler, Evil Bo Cleevil. And when all of these things collide, there's no telling who will find courage to make it through. . . or who will be left behind.

My Diary from the Edge of the World *Simon and Schuster*

Told in diary form by an irresistible heroine, this “heartfelt, bittersweet, and ever-so-clever coming-of-age fantasy” (School Library Journal, starred review) named one of Publishers Weekly’s Best Books of the Year

from the New York Times bestselling author of the May Bird trilogy sparkles with science, myth, magic, and the strange beauty of the everyday marvels we sometimes forget to notice. Spirited, restless Gracie Lockwood has lived in Cliffden, Maine, her whole life. She's a typical girl in an atypical world: one where sasquatches helped to win the Civil War, where dragons glide over Route 1 on their way south for the winter (sometimes burning down a T.J. Maxx or an Applebee's along the way), where giants hide in caves near LA and mermaids hunt along the beaches, and where Dark Clouds come for people when they die. To Gracie it's all pretty ho-hum...until a Cloud

comes looking for her little brother Sam, turning her small-town life upside down. Determined to protect Sam against all odds, her parents pack the family into a used Winnebago and set out on an epic search for a safe place that most people say doesn't exist: The Extraordinary World. It's rumored to lie at the ends of the earth, and no one has ever made it there and lived to tell the tale. To reach it, the Lockwoods will have to learn to believe in each other—and to trust that the world holds more possibilities than they've ever imagined.

What It's Like to Be a Bird

From Flying to Nesting, Eating to

Singing--What Birds Are Doing, and Why *Knopf*

The bird book for birders and nonbirders alike that will excite and inspire by providing a new and deeper understanding of what common, mostly backyard, birds are doing—and why: "Can birds smell?"; "Is this the same cardinal that was at my feeder last year?"; "Do robins 'hear' worms?" "The book's beauty mirrors the beauty of birds it describes so marvelously." —NPR In *What It's Like to Be a Bird*, David Sibley answers the most frequently asked questions about the birds we see most often. This special, large-format volume is geared as much to nonbirders as it is to the out-and-out

obsessed, covering more than two hundred species and including more than 330 new illustrations by the author. While its focus is on familiar backyard birds—blue jays, nuthatches, chickadees—it also examines certain species that can be fairly easily observed, such as the seashore-dwelling Atlantic puffin. David Sibley's exacting artwork and wide-ranging expertise bring observed behaviors vividly to life. (For most species, the primary illustration is reproduced life-sized.) And while the text is aimed at adults—including fascinating new scientific research on the myriad ways birds have adapted to environmental changes—it is

nontechnical, making it the perfect occasion for parents and grandparents to share their love of birds with young children, who will delight in the big, full-color illustrations of birds in action. Unlike any other book he has written, *What It's Like to Be a Bird* is poised to bring a whole new audience to David Sibley's world of birds.

I Know Why the Caged Bird Sings

Random House

Here is a book as joyous and painful, as mysterious and memorable, as childhood itself. I Know Why the Caged Bird Sings captures the longing of lonely

children, the brute insult of bigotry, and the wonder of words that can make the world right. Maya Angelou's debut memoir is a modern American classic beloved worldwide. Sent by their mother to live with their devout, self-sufficient grandmother in a small Southern town, Maya and her brother, Bailey, endure the ache of abandonment and the prejudice of the local "powhitetrash." At eight years old and back at her mother's side in St. Louis, Maya is attacked by a man many times her age—and has to live with the consequences for a lifetime. Years later, in San Francisco, Maya learns that love for herself, the kindness of others, her

own strong spirit, and the ideas of great authors ("I met and fell in love with William Shakespeare") will allow her to be free instead of imprisoned. Poetic and powerful, *I Know Why the Caged Bird Sings* will touch hearts and change minds for as long as people read. "I Know Why the Caged Bird Sings liberates the reader into life simply because Maya Angelou confronts her own life with such a moving wonder, such a luminous dignity." —James Baldwin From the Paperback edition.

A Most Remarkable Creature

The Hidden Life of the World's Smartest Birds of Prey *Vintage*

"Utterly captivating and beautifully written, this book is a hugely entertaining and enlightening exploration of a bird so wickedly smart, curious, and social, it boggles the mind."—Jennifer Ackerman, author of *The Bird Way* "A fascinating, entertaining, and totally engrossing story."—David Sibley, author of *What It's Like to Be a Bird* An enthralling account of a modern voyage of discovery as we meet the clever, social birds of prey called caracaras, which puzzled Darwin, fascinate modern-day falconers, and carry secrets of our planet's deep past in their family history. "As curious, wide-ranging, gregarious, and intelligent as its subject."—Charles C. Mann, author of *1491* In 1833, Charles Darwin was astonished by an animal he met in the Falkland Islands: handsome, social, and oddly crow-like falcons that were "tame and inquisitive . . . quarrelsome and passionate," and so insatiably curious that they stole hats, compasses, and other valuables from the crew of the *Beagle*. Darwin wondered why these birds were confined to remote islands at the tip of South America, sensing a larger story, but he set this mystery aside and never returned to it. Almost two hundred years later, Jonathan Meiburg takes up this chase. He takes us through South America, from the fog-

bound coasts of Tierra del Fuego to the tropical forests of Guyana, in search of these birds: striated caracaras, which still exist, though they're very rare. He reveals the wild, fascinating story of their history, origins, and possible futures. And along the way, he draws us into the life and work of William Henry Hudson, the Victorian writer and naturalist who championed caracaras as an unsung wonder of the natural world, and to falconry parks in the English countryside, where captive caracaras perform incredible feats of memory and problem-solving. A Most Remarkable Creature is a hybrid of science writing, travelogue, and biography, as generous

and accessible as it is sophisticated, and absolutely riveting.

Parakeet

A Novel *Farrar, Straus and Giroux*

A Best Book of 2020 at Lit Hub, Electric Literature, and Refinery29 A Best Book of Summer at Vulture, Refinery29, Yahoo! Life, Alma, Subway Book Review, and Lit Hub A Best Book of the Month at Entertainment Weekly, Hello Giggles, and PopSugar EDITORS' CHOICE AT THE NEW YORK TIMES BOOK REVIEW LONGLISTED FOR THE 2021 CARNEGIE MEDAL and the Joyce Carol Oates Prize "Miraculous: spry and mordant, with sentences that lull you with their rhythms, then twist suddenly

and sting." —Lauren Groff, author of *Florida* "A twisting, strange delight, Parakeet shimmers a soft and generous light on the darkest of a woman's innermost thoughts." —Kristen Iversen, *Refinery29* Acclaimed author of *2 A.M.* at the Cat's Pajamas Marie-Helene Bertino's *Parakeet* is a darkly funny and warm-hearted novel about a young woman whose dead grandmother (in the form of a parakeet) warns her not to marry and sends her out to find an estranged loved one. The week of her wedding, The Bride is visited by a bird she recognizes as her dead grandmother because of the cornflower blue line beneath her eyes, her dubious expression, and the way she asks: What is

the Internet? Her grandmother is a parakeet. She says not to get married. She says: Go and find your brother. In the days that follow, The Bride's march to the altar becomes a wild and increasingly fragmented, unstable journey that bends toward the surreal and forces her to confront matters long buried. A novel that does justice to the hectic confusion of becoming a woman today, *Parakeet* asks and begins to answer the essential questions. How do our memories make, cage, and free us? How do we honor our experiences and still become our strongest, truest selves? Who are we responsible for, what do we owe them, and how do we allow them to change?

Urgent, strange, warm-hearted, and sly, Parakeet is ribboned with joy, fear, and an inextricable thread of real love. It is a startling, unforgettable, life-embracing exploration of self and connection.

Why Peacocks?

An Unlikely Search for Meaning in the World's Most Magnificent Bird

Simon and Schuster

An acclaimed journalist seeks to understand the mysterious allure of peacocks—and in the process discovers unexpected and valuable life lessons. 2022 Andrew Carnegie Medal for Excellence Longlist Selection
When Sean Flynn's neighbor in North Carolina texted "Any chance you guys want

a peacock? No kidding!" he stared bewilderedly at his phone. He had never considered whether he wanted a peacock. But as an award-winning magazine writer, this kind of mystery intrigued him. So he, his wife, and their two young sons became the owners of not one but three charming yet fickle birds: Carl, Ethel, and Mr. Pickle. In *Why Peacocks?*, Flynn chronicles his hilarious and heartwarming first year as a peacock owner, from struggling to build a pen to assisting the local bird doctor in surgery to triumphantly watching a peahen lay her first egg. He also examines the history of peacocks, from their appearance in the Garden of Eden to their befuddling Charles

Darwin to their bewitching the likes of Flannery O'Connor and Martha Stewart. And fueled by a reporter's curiosity, he travels across the globe to learn more about the birds firsthand, with stops including a Scottish castle where peacocks have resided for centuries, a southern California community tormented by a serial killer of peacocks, and a Kansas City airport hotel hosting an annual gathering of true peafowl aficionados. At turns comically absurd and deeply poignant, *Why Peacocks?* blends lively, insightful memoir and illuminating science journalism to answer the title's question. More than that, it offers surprising lessons about love,

grief, fatherhood, and family.

Birds and People
Random House

There are 10,500 species of bird worldwide and wherever they occur people marvel at their glorious colours and their beautiful songs. We also trap and consume birds of every kind. Yet birds have not just been good to eat. Their feathers, which keep us warm or adorn our costumes, give birds unique mastery over the heavens. Throughout history their flight has inspired the human imagination so that birds are embedded in our religions, folklore, music and arts. Vast in both scope and scale, *Birds and People* explores and celebrates this

relationship and draws upon Mark Cocker's 40 years of observing and thinking about birds. Part natural history and part cultural study, it describes and maps the entire spectrum of our engagements with birds, drawing in themes of history, literature, art, cuisine, language, lore, politics and the environment. In the end, this is a book as much about us as it is about birds. *Birds and People* has been stunningly illustrated by one of Europe's best wildlife photographers, David Tipling, who has travelled in 39 countries on seven continents to produce a breathtaking and unique collection of photographs. The book is as important for its visual riches as it is for its groundbreaking

content. *Birds and People* is also exceptional in that the author has solicited contributions from people worldwide. Personal anecdotes and stories have come from more than 650 individuals in 81 different countries. They range from university academics to Mongolian eagle hunters, and from Amerindian shamans to some of the most celebrated writers of our age. The sheer multitude of voices in this global chorus means that *Birds and People* is both a source book on why we cherish birds and a powerful testament to their importance for all humanity.

Boy, Snow, Bird

A Novel *Penguin*

As seen on the cover of the New York Times Book Review, where it was described as “gloriously unsettling... evoking Toni Morrison, Haruki Murakami, Angela Carter, Edgar Allan Poe, Gabriel García Márquez, Chris Abani and even Emily Dickinson,” and already one of the year’s most widely acclaimed novels: “Helen Oyeyemi has fully transformed from a literary prodigy into a powerful, distinctive storyteller...Transfixing and surprising.”—Entertainment Weekly (Grade: A) “I don’t care what the magic mirror says; Oyeyemi is the cleverest in the land...daring and unnerving... Under Oyeyemi’s spell, the fairy-tale conceit makes a brilliant

setting in which to explore the alchemy of racism, the weird ways in which identity can be transmuted in an instant — from beauty to beast or vice versa.” – Ron Charles, The Washington Post From the prizewinning author of What Is Not Yours Is Not Yours, Gingerbread, and Peaces comes a brilliant recasting of the Snow White fairy tale as a story of family secrets, race, beauty, and vanity. In the winter of 1953, Boy Novak arrives by chance in a small town in Massachusetts looking, she believes, for beauty—the opposite of the life she’s left behind in New York. She marries Arturo Whitman, a local widower, and becomes stepmother to his winsome daughter,

Snow. A wicked stepmother is a creature Boy never imagined she'd become, but elements of the familiar tale of aesthetic obsession begin to play themselves out when the birth of Boy's daughter, Bird, who is dark-skinned, exposes the Whitmans as light-skinned African-Americans passing for white. And even as Boy, Snow, and Bird are divided, their estrangement is complicated by an insistent curiosity about one another. In seeking an understanding that is separate from the image each presents to the world, Boy, Snow, and Bird confront the tyranny of the mirror to ask how much power surfaces really hold. Dazzlingly inventive

and powerfully moving, Boy, Snow, Bird is an astonishing and enchanting novel. With breathtaking feats of imagination, Helen Oyeyemi confirms her place as one of the most original and dynamic literary voices of our time.

The Snoring Bird

My Family's Journey Through a Century of Biology *Harper Collins*

Although Gerd Heinrich, a devoted naturalist, specialized in wasps, Bernd Heinrich tried to distance himself from his "old-fashioned" father, becoming a hybrid: a modern, experimental biologist with a naturalist's sensibilities. In this extraordinary memoir, the award-winning

author shares the ways in which his relationship with his father, combined with his unique childhood, molded him into the scientist, and man, he is today. From Gerd's days as a soldier in Europe and the family's daring escape from the Red Army in 1945 to the rustic Maine farm they came to call home, Heinrich relates it all in his trademark style, making science accessible and awe-inspiring.

Imperial Dreams

Tracking the Imperial Woodpecker Through the Wild Sierra Madre *Simon and Schuster*

Explorer and naturalist Tim Gallagher is obsessed with rare

birds. A decade ago, Gallagher was one of the rediscoverers of the legendary ivory-billed woodpecker, which most scientists believed had been extinct for more than half a century—an event that caused an international stir. Now, in *Imperial Dreams*, Gallagher once again hits the trail, journeying deep into Mexico's savagely beautiful Sierra Madre Occidental, home to rich wildlife, as well as to Mexican drug cartels, in a perilous quest to locate the most elusive bird in the world—the imperial woodpecker, a giant among its clan. The imperial woodpecker's trumpetlike calls and distinctive hammering on massive pines once echoed through the high forests. Two feet

tall, with deep black plumage, a brilliant snow-white shield on its back, and a crimson crest, the imperial woodpecker had largely disappeared fifty years ago, though reports persist of the bird still flying through remote mountain stands. In an attempt to find and protect the imperial woodpecker in its last habitat, Gallagher is guided by a map of sightings of this natural treasure of the Sierra Madre, bestowed on him by a friend on his deathbed. Charged with continuing the quest of a line of distinguished naturalists, including the great Aldo Leopold, Gallagher treks through this mysterious, historically untamed and untamable territory. Here, where an ancient

petroglyph of the imperial can still be found, Geronimo led Apaches in their last stand, William Randolph Hearst held a storied million-acre ranch, and Pancho Villa once roamed, today ruthless drug lords terrorize residents and steal and strip the land. Gallagher's passionate quest takes a harrowing turn as he encounters armed drug traffickers, burning houses, and fleeing villagers. His mission becomes a life-and-death drama that will keep armchair adventurers enthralled as he chases truth in the most dangerous of habitats.

The Vanishing Season *Harper Collins*
From New York Times bestselling author Jodi Lynn Anderson comes

a haunting and lovely small-town romance, perfect for fans of Gayle Forman, Lauren Myracle, and Laurie Halse Anderson. When Maggie's parents move them from bustling Chicago to small, rundown Door County, Wisconsin, she thinks she'll spend a year reading classics and killing time until college. That plan changes as soon as she meets Pauline and Liam. Soon the three are inseparable, stretching out the love between two childhood best friends to fit over all of them and all their grand dreams. But what starts as an uneventful year suddenly changes. Someone is killing teenage girls, and the town reels from each new tragedy. And as the dynamics between

Maggie, Pauline, and Liam shift and collide in irreversible ways, they all will experience love and loss hand-in-hand—but only two of them will survive the winter.

Bird Families of North America
Houghton Mifflin

Focusing on families and their shared traits makes bird identification easier than ever. This guide takes readers beyond merely identifying birds to understanding them. Many birders can tell the difference between a White-eyed and Bell's Vireo but cannot begin to describe a vireo and what distinguishes members of this family from warblers or flycatchers. The "species by species" approach makes it

difficult to appreciate birds for what they are: members of well-organized groupings united by common traits. Putting the focus on families, and their shared characteristics, makes bird identification easier and more meaningful. More than 150 color photos illustrate the 81 bird families of the United States and Canada.

May Bird Among the Stars

Book Two *Aladdin*

May Bird has always been a bit. . . different. While most of her classmates were riding their bikes, she was running around the West Virginia woods, dressed as a warrior princess with her hairless cat at her side.

And while most of her classmates were spending their summer vacations going to birthday parties, May was discovering a mysterious lake hidden among the trees -- and stumbling into the land of ghosts, the Ever After. A fearful and fantastic realm located among the stars, the Ever After is full of phantoms and poltergeists, ghouls and goblins, and all manner of things that go bump in the night. And if May is to find her way out again, she must reach the mysterious Lady of North Farm, who lives in a cold, forbidding land that even the spooks find spooky. With her courageous (yet melancholy) kitty and a ragtag group of spectral friends she's picked up along the

way, May is determined to escape the Afterlife. But her travels will bring her face-to-face with her worst fears: a devious pursuer; a truly horrifying dance party under the sea, hosted by the Bogey (aka Boogie) Man; and the Ever After's terrible ruler, Evil Bo Cleevil. And when all of these things collide, there's no telling who will find courage to make it through. . . or who will be left behind.

A Wrinkle in Time *GENERAL PRESS*

A Wrinkle in Time is the winner of the 1963 Newbery Medal. It was a dark and stormy night—Meg Murry, her small brother Charles Wallace, and her mother had come down to the kitchen for a midnight snack when

they were upset by the arrival of a most disturbing stranger. "Wild nights are my glory," the unearthly stranger told them. "I just got caught in a downdraft and blown off course. Let me sit down for a moment, and then I'll be on my way. Speaking of ways, by the way, there is such a thing as a tesseract." A tesseract (in case the reader doesn't know) is a wrinkle in time. To tell more would rob the reader of the enjoyment of Miss L'Engle's unusual book. *A Wrinkle in Time*, winner of the Newbery Medal in 1963, is the story of the adventures in space and time of Meg, Charles Wallace, and Calvin O'Keefe (athlete, student, and one of the most popular boys in high

school). They are in search of Meg's father, a scientist who disappeared while engaged in secret work for the government on the tesseract problem.

The Living Sea of Waking Dreams

A novel *Vintage*

From the acclaimed Booker Prize-winning author comes a dazzling novel of family, love and love's disappointments. Anna's aged mother is dying. Condemned by her children's pity to living, subjected to increasingly desperate medical interventions, she turns her focus to her hospital window, through which she escapes into visions of horror and delight. When Anna's finger vanishes and a few months later her knee

disappears, Anna too feels the pull of the window. She begins to see that all around her, others are similarly vanishing, yet no one else notices. All Anna can do is keep her mother alive. But the window keeps opening wider, taking Anna and the reader ever deeper into an eerily beautiful story of grief and possibility, of loss and love and orange-bellied parrots. Hailed on publication in Australia as Richard Flanagan's greatest novel yet, *The Living Sea of Waking Dreams* is a rising ember storm illuminating what remains when the inferno beckons: one part elegy, one part dream, one part hope.

Warrior Princess

Simon and Schuster

At Hog Wallow Middle

School, May Ellen Bird was always slightly invisible. Then she went on a long trip to the land of the dead, where ghost towns glowed blue in the dark dusk and spooky specters dwelled in cities on the Dead Sea. Back on Earth at last, May and her hairless cat, Somber Kitty, are now famous, their faces plastered across souvenirs and sportswear that read "May Bird Went to the Land of the Dead and All She Brought Me Was This Lousy T-Shirt." But, finally in the spotlight, May feels more than ever that she doesn't belong. Every night she sits by her bedroom window, gazing at the sky and dreaming of another place, wishing -- despite herself -- to be back among the

ghosts. And then one night she gets her heart's desire in a way she would never have wished for. Only the Ever After isn't anything like the world May left behind three years ago. The spirits have vanished, and the towns -- once full of every manner of things that go bump in the night -- are deserted. Evil Bo Cleevil has made the Ever After as cold as his own frigid soul, and put up a bunch of tacky malls to boot. Now, with her friends missing and enemies all around her, May must find her way to the edge of the universe, where night swallows the stars, where allies are few and often have bad breath, where endings can also be beginnings, and where the truest hero lurks in the

unlikelyst of souls. But Bo Cleevil's got one last trick up his sleeve -- one that no one on Earth is ready for. With the worlds of the living and the dead in the balance, will May's courage fail her one last time? Or will she finally become the warrior she was always meant to be?

Doomed Romance

Broken Hearts, Lost Souls, and Sexual Tumult in Nineteenth-Century America *Knopf*

A NEW YORK TIMES NOTABLE BOOK OF THE YEAR • A thwarted love triangle of heartbreak rediscovered after almost two hundred years—two men and a woman of equal ambition—that exploded in scandal

and investigation, set between America's Revolution and its Civil War, revealing an age in subtle and powerful transformation, caught between the fight for women's rights and the campaign waged by evangelical Protestants to dominate the nation's culture and politics. From the winner of the Bancroft Prize and the Francis Parkman Prize in History. At its center—and the center of a love triangle—Martha Parker, a gifted young New England woman, smart, pretty, ambitious, determined to make the most of her opportunities, aspiring to become an educator and a foreign missionary. Late in 1825, Martha accepted a proposal from a schoolmaster, Thomas

Tenney, only to reject him several weeks later for a rival suitor, a clergyman headed for the mission field, Elnathan Gridley. Tenney's male friends, deeply resentful of the new prominence of women in academies, benevolent and reform associations, and the mission field, decided to retaliate on Tenney's behalf by sending an anonymous letter to the head of the foreign missions board impugning Martha's character. Tenney further threatened Martha with revealing even more about their relationship, thereby ruining her future prospects as a missionary. The head of the board began an inquiry into the truth of the claims about Martha, and in so

doing, collected letters, diaries, depositions, and firsthand witness accounts of Martha's character. The ruin of Martha Parker's hopes provoked a resistance within evangelical ranks over womanhood, manhood, and, surprisingly, homosexuality, ultimately threatening to destroy the foreign missions enterprise.

The Last Mapmaker

Candlewick Press

From Christina Soontornvat, the visionary and versatile author of two 2021 Newbery Honor Books, comes a high-seas adventure set in a Thai-inspired fantasy world. In a fantasy adventure every bit as compelling and confident in its world building as her Newbery Honor Book *A Wish in the Dark*, Christina Soontornvat explores a young woman's struggle to unburden herself of the past and chart her own destiny in a world of secrets. As assistant to Mangkon's most celebrated mapmaker, twelve-year-old Sai plays the part of a well-bred young lady with a

glittering future. In reality, her father is a conman—and in a kingdom where the status of one's ancestors dictates their social position, the truth could ruin her. Sai seizes the chance to join an expedition to chart the southern seas, but she isn't the only one aboard with secrets. When Sai learns that the ship might be heading for the fabled Sunderlands—a land of dragons, dangers, and riches beyond imagining—she must weigh the cost of her dreams.
