Learn to Draw - Manual Drawing - for the Absolute Beginner *JD-Biz Corp Publishing*

Learn to Draw - Manual Drawing - for the Absolute Beginner If you are an artist in search of further knowledge about drawing to enhance your skills, then this is not the book for you. This book is for the individuals who wants to be an artist but know nothing about drawing. I know how it feels when you want to illustrate an idea but you just don't know how to start. And when you finally grabbed the confidence to mark that paper but then it turned out really terrible and you didn't want to show it to anyone. Table of contents INTRODUCTION GETTING STARTED How to grip a pencil properly Warming up SKETCHING Starting with sticks and shapes DETAILING Design Texture SHADING Casting shadows Hatching Cross-hatching Scumbling Stippling Smudging and layering Smudging Layering This instructional manual is for making the 'two circles' cat of yours into something more pleasing and distinguishable, for enhancing that sheep which looks like a cloud with a face, for turning your stick figures into cartoons, and more. Learn the very basics of drawing easily by following this step-by-step tutorial and realize that drawing is something that is fun to do, and not something that becomes a cause of frustration. To give you a hint of what this book is all about, look at this short list of tasks that you will learn to properly initiate after reading and following the tutorial. Tasks: Start with a loose sketch. You need to define the first look of your drawing by

sketching it first so it could serve as a pattern for your permanent outlines (defined outlines). If the lay-out of your primary sketch is too far-off from the final piece that you are after, the latter parts are going to be difficult. Define permanent outlines. Trace your sketch to clearly define the contour shape (primary shape) of your drawing, and clean it up by erasing the sketch markings. Show/illustrate some texture. Texture contour provides a better portrayal of the shape's dimension values. The details such as scales, fur or any print and texture should curve and flow with the contour shape of your subject and adjust with it accordingly. Draw the necessary details. Use a variety of line thickness and line weight (given pressure on the pencil) to show the right balance to the whole drawing, use thick lines for the parts that should visually dominate the drawing, and less visible and thin lines for the secondary details and parts that merely describe the object/subject's form.

A Wrinkle in Time *GENERAL PRESS*

A Wrinkle in Time is the winner of the 1963 Newbery Medal. It was a dark and stormy night—Meg Murry, her small brother Charles Wallace, and her mother had come down to the kitchen for a midnight snack when they were upset by the arrival of a most disturbing stranger. "Wild nights are my glory," the unearthly stranger told them. "I just got caught in a downdraft and blown off course. Let me sit down for a moment, and then I'll be on my way. Speaking of ways, by the way, there is such a thing as a tesseract." A tesseract (in case the reader doesn't know) is a wrinkle in time. To tell more would rob the reader of the enjoyment of Miss L'Engle's unusual book. A Wrinkle in Time, winner of the Newbery Medal in 1963, is the story of the adventures in space and time of Meg, Charles Wallace, and Calvin O'Keefe (athlete, student, and one of the most popular boys in high school). They are in search of Meg's father, a scientist who disappeared while engaged in secret work for the government on the tesseract problem.

Sand Talk *HarperCollins*

A paradigm-shifting book in the vein of Sapiens that brings a crucial Indigenous perspective to historical and cultural issues of history, education, money, power, and sustainability—and offers a new template for living. As an indigenous person, Tyson Yunkaporta looks at global systems from a unique perspective, one tied to the natural and spiritual world. In considering how contemporary life diverges from the pattern of creation, he raises important questions. How does this affect us? How can we do things differently? In this thoughtful, culturally rich, mind-expanding book, he provides answers. Yunkaporta's writing process begins with images. Honoring indigenous traditions, he makes carvings of what he wants to say, channeling his thoughts through symbols and diagrams rather than words. He yarns with people, looking for ways to connect images and stories with place and relationship to create a coherent world view, and he uses sand talk, the Aboriginal custom of drawing images on the ground to convey knowledge. In Sand Talk, he provides a new model for our everyday lives. Rich in ideas and inspiration, it explains how lines and symbols and shapes can help us make sense of the world. It's about how we learn and how we remember. It's about talking to everyone and listening carefully. It's about finding different ways to look at things. Most of all it's about a very special way of thinking, of learning to see from a native perspective, one that is spiritually and physically tied to the earth around us, and how it can save our world. Sand Talk include 22 black-and-white illustrations that add depth to the text.
