Iso 7500 1 2015**Metallic**

Abstract. ISO 7500-1:2015 specifies the calibration and verification of tension/compression testing machines. The verification consists of:

- a general inspection of the testing machine, including its accessories for the force application;
- a calibration of the force-measuring system of the testing machine;
- a confirmation that the performance properties of the testing machine achieve the limits given for a specified class.
