In the north and north west of Norfolk, the rivers Burn, Glaven, Mun and Stiffkey, all chalk-fed, flow into the Wash or directly into the North Sea. Why should we protect and restore our rivers? A well-functioning river system requires good water quality, distinctive physical processes, and a diverse array of fauna and flora.

Rivers. Trickling streams and peaceful rivers are a beautiful and important part of the character of the North York Moors. They provide a habitat for nationally important species of wildlife, a water supply for people, and a scenic and relaxing part of the landscape for recreational activities. The waterways in the North York Moors have an amazing range of characters: small becks babbling over moorland, swollen torrents thundering through deep wooded gorges, and slow waters quietly ...

The River Trent is the third-longest river in the United Kingdom. Its source is in Staffordshire on the southern edge of Biddulph Moor. It flows through and drains most of the metropolitan central and northern Midlands south and east of its source north of Stoke-on-Trent. The river is known for dramatic flooding after storms and spring snowmelt, which in past times often caused the river to ...

### **River Trent - Wikipedia**

North River is an alternative name for the southernmost portion of the Hudson River in the vicinity of New York City and northeastern New Jersey in the United States. The entire watercourse was known as the North River by the Dutch in the early seventeenth century; the term fell out of general use for most of the river's 300+ mile course during the early 1900s. However the name remains in very limited use as an artifact among history-inclined local mariners and others and on some nautical charts

The Hudson River flows 315 miles north to south in eastern New York. It is a fairly short river when compared to many of the other rivers on this page. However, the Hudson played an important role in the early history of the United States. When the Erie Canal was opened in 1825, the Hudson was connected to the Great Lakes. This created a trade ...
