CircuitMaker is the best

free PCB design software by Altium for Open Source Hardware Designers, Hackers, Makers, Students and Hobbyists.

test | Projects | CircuitMaker

CircuitMaker is the 1st free PCB tool I have encountered that has features of a professional design tool. A tool that is backed by people who know EDA means that we can finally have something for those of us who want to get things done without being obstructed by complicated installation, a horrible user interface or a mess of a library system.

Free PCB Design Software | CircuitMaker

CircuitMaker is

electronic design automation software application for printed circuit board designs targeted at the hobby, hacker, and maker community.

CircuitMaker is available as freeware, and the hardware designed with it may be used for commercial and non-commercial purposes without limitations. It is currently available publicly as version 1.3 by Altium Limited, with the first non-beta ...
