Facts about Ancient Greece. 1. It's believed the first Ancient Greek civilisations were formed nearly 4,000 years ago (approximately 1600 BC) by the mighty Mycenaeans of Crete (a Greek Island). The Ancient Greek Empire spread from Greece through Europe and, in 800 BC, the Greeks started to split their land into city-states, each with its own laws, customs and rulers. 2.

Facts about Ancient Greece for kids | National Geographic Kids

The main physical geographic features of Ancient Greece are mountains, islands, and the sea. The mountains of Ancient Greece separated people geographically. Because of this, Greek city-states tended to be isolated from one another. This meant that societies grew and developed independently. City-states had their own governments.

Geography of Ancient Greece - Students of History

Mission Uncomfortable! Spartan boys had to complete a very tough programme of education which moulded them into good soldiers. This programme, called the agoge, began at age seven when boys would leave their family to be brought up in barracks with other boys. At the age of twenty, having completed the agoge and undergone army training, a boy had to be elected

into a mess.

Ancient Greece - Sparta - The British Museum

The Hellenistic period of Greek history begins with the death of Alexander the Great in 323 BC and ends with the annexation of the Greek peninsula and islands by Rome in 146 BC. Although the establishment of Roman rule did not break the continuity of Hellenistic society and culture, which remained essentially unchanged until the advent of Christianity, it did mark the end of Greek political independence.
