“The rent of land, therefore, considered as the price paid for the use of the land, is naturally a monopoly price. It is not at all proportioned to what the landlord may have laid out upon the improvement of the land, or to what he can afford to take; but to what the

farmer can afford to give.” Smith, Adam (1776) Wealth of Nations, p162

Rethinking the economics of land and housing

Looking at the ways in which discussions of land have been routinely excluded from both housing policy and economic theory, Rethinking the Economics of Land and Housing argues that in order to tackle these increasingly pressing issues a major re-thinking by both politicians and economists is required. This is the first comprehensive guide to the role of land in the economy, making this an essential reference for students, scholars, policymakers, activists, and NGOs working on land issues.
