You'll select from a range of music-related modules throughout the course. You can choose optional modules from both the Acoustical Engineering and Music programmes. Year 1 overview. Compulsory modules will provide a background in acoustical engineering. You'll study the physics and mathematics of sound and acoustics. Music modules look at ...

Acoustics with Music | BSc | University of Southampton

Musical acoustics is concerned with researching and describing the science of music. In audio engineering, this includes the design of electronic instruments such as synthesizers; the human voice (the physics and neurophysiology of singing); physical modeling of musical instruments; room acoustics of concert venues; music information retrieval; music therapy, and the perception and cognition of music.
