Html Xhtml And Css All

Bringing CSS and XHTML Together I've mentioned that HTML and XHTML documents have an inherent structure, and that's a point worth repeating. In fact, that's part of the problem with web pages of old: too many of us forgot that documents are supposed to have an internal structure, which is altogether different than a visual structure.

While reading HTML, XHTML & CSS Bible, I was surprised to find that most of the most basic HTML

markup codes have been deprecated. Classic codes which were the first codes people historically learned about markup language, like bold , italic , underline <u>, center <center> and font tags have all been essentially deleted from the language while the currently preferred method to adjust these has been changed to CSS.
