Network Rail A Guide to Overhead Electrification

In the wake of the electrification of Tyneside by the NER, this coal-carrying line was electrified between 1 July 1915 and 1 January 1916 as a planned precursor to electrifying NER's busy York to Newcastle main line (part of the East Coast Main Line). The LNER removed this electrification system in 1935 (between 7 January and 8 July); the decline in the coal market making it economically unfeasible to undertake the significant renewals required to continue electric
