 and aerosol generating procedures.

Coronavirus » Infection control

The physical environment within the home can also vary
 markedly, resulting in the community nurse requiring
 considerable adaptation skills to prevent or maintain control of
 infection: changing a dressing in a person's home where space is
 at a minimum might for example entail kneeling on the carpet or
 even on the bed and the community nurse must make the

environment as safe as possible by implementing the same principles of infection control that would be adopted in hospital.
