Phenomenology within sociology is the study of the formal structures of concrete social existence as made available in and through the analytical description of acts of intentional consciousness. The object of such an analysis is the meaningful lived world of everyday life. The task of phenomenological sociology is to account for, or describe, the formal structures of the given object of investigation in terms of subjectivity, as an object-constituted-in-and-for-consciousness. That which makes s

Phenomenological Theory of Personality. Rogers moved away from the pessimistic views of human nature put forward by Sigmund Freud to a more experiential or phenomenological view. Freud believed that the human condition was involved in a constant battle between the Id Ego and Super-ego. Rogers' Person-Centred theory, on the other hand, is based on what he described as the Phenomenal Field.

Phenomenology offers a particularly interesting view of cognition for social researchers. It sees consciousness as developed through experience, not the work of a disembodied mind. It takes all consciousness as intentional – in other words when we try to make sense of something it is always with a purpose in mind.

In the phenomenological tradition of Edmund Husserl and Martin Heidegger we find a vivid picture of man as a being meditatively alone but fundamentally social. It is often thought that philosophers favor living alone, in isolation, devoting themselves to quiet contemplation. There is the standard image of the guru or sadhu living in a cave.

Phenomenology. M. van Manen, C.A. Adams, in International Encyclopedia of Education (Third Edition), 2010. Phenomenology is an approach to qualitative inquiry that is grounded in certain traditions of philosophy and the humanities, and that aims to reflect on prereflective human experience. The phenomenological researcher attempts to recapture and express in language experiential meanings as lived through, before we conceptualize, abstract, or explain them.
