Blender 2.5 Character Animation Cookbook [Book]

The use of drivers in Blender 2.5 changed significantly from previous versions. Now, almost every property in Blender can be animated, driven, and used as a driver for other properties. It's just a matter of right-clicking over the property that you want to control and selecting Add Driver, then setting it up on the Graph Editor window. You can even make complex drivers using scripted expressions that can take into

account more than one property and math expressions, for example.
