farming and particularly of rice farming has resulted in out-migration of men for jobs in cities and towns, leaving women with primary responsibility for farming. The System of Rice Intensification (SRI) is gaining popularity around the world in large part due to its appeal to women. These four Vietnamese women. farmers, after they received

Women and Rice Farming: Feeding the World

Here are our revisited findings on five commonly voiced 'gender myths': Myth: Women have limited access to land and lose out when land becomes more commercialized. Reality: While the gender gap in landholding in Ghana has diminished over time, a new gender gap in the size of land held has widened. Women in matrilineal ethnic groups are more likely to hold land, but hold plots of smaller size than women in patrilineal ethnic groups.

Gender roles in agriculture: Did anything change?

Men do most of the heavy work in rice farming and women assist in all farm activities. Men's contribution in rice farming exceeds women's because women also have reproductive roles and household responsibilities. Both genders participate in decision-making but men's decisions always prevail. K. Sri Lanka. Rose Rupasinghe Samuel
