One of the most shocking scientific realizations of all time has slowly been dawning on us: the earth's climate does great flip-flops every few thousand years, and with breathtaking speed. Many times in the lives of our ancestors, the climate abruptly cooled, just within several years. Worse was the accompanying drought and the forest fires, all around the world.

Description: A brain for all seasons

William H. Calvin, on the faculty at the University of Washington's School of Medicine, offers in "A Brain for All Seasons" a modification of Darwin's theory that is both illuminating and reasoned. He argues that while Darwin thought in terms of eons of time and slow progression across thousands of generations, some evolutionary processes might be more immediate and striking.
