A SIMPLE MESH GENERATOR IN MATLAB 3 A simple approach to solve $F(p) = 0$ is to introduce an artificial time-dependence. For some $p(0) = p_0$, we consider the system of ODEs (in non-physical units!) $dp/dt = F(p)$, $t \geq 0$. (2.3) If a stationary solution is found, it satisfies our system $F(p) = 0$. The system (2.3) is approximated using the forward Euler method.

Mesh Generation and its application to Finite Element Methods

Mesh generation is deceptively difficult: it is easy for humans to see how to create a mesh of a given object, but difficult to program a computer to make good decisions for arbitrary input a priori. There is an infinite variety of geometry found in nature and man-made objects. Many mesh generation researchers were first users of meshes.
