Some redundant sections are removed based on the feedback we received. More management sections (such as managing acute alcohol intoxication, sepsis, renal failure, etc) are added. New section on "Introduction to Cardiology Procedures" is added. All the sections are edited and at least one-third of the book has changed. The sole purpose of this booklet is to help new interns in the beginning of the year. The Washington Manual Internship Survival Guide
Lippincott Williams & Wilkins

"As an intern you will encounter many new challenges. These will range from very simple to most complex. Please

remember that you have acquired the tools to address this adversity. And, even when you feel most overwhelmed, you are undoubtedly surrounded by a wealth of available resources that include ancillary and nursing staff, fellow interns, senior residents and attending physicians. The following competencies/milestones were copied from the curriculum for the in-patient general medicine rotation for the internship program at Washington University School of Medicine and Barnes-Jewish Hospital. You can see that not only are the objectives quite simple, but your rigorous work in medical school has well prepared you to master many of your goals. Throughout the year, use these objectives as a checklist to remind yourself of your accomplishments and to guide your learning in potential areas of weakness.

- Patient care:
 - o Gather accurate information about patients, including performing a thorough history and physical examination.
 - o Synthesize data into a prioritized problem list and differential diagnosis, and then formulate diagnostic and therapeutic plans.
 - o Prioritize each day's work.
 - o Know the indications, contraindications, and risks of some invasive procedures and competently perform some invasive procedures"--Provided by publisher.

The ACLS Pocket Survival Guide

The School Psychology Internship *Routledge*

Dr. Newman has used his many years of experience working with interns and field supervisors to create this comprehensive guide to the school psychology internship. The second edition of this text includes updated research and tools, including a new job interview video, and new templates for developing a cover letter, CV, and remediation plan. Expanded content includes brand new chapters focused on applying for doctoral internships through the APPIC Match process, and successfully transitioning from the internship into the early career. Students and internship supervisors alike will find this easy-to-use guide helpful in alleviating anxiety around common internship concerns. Emphasis is placed on the idea that the internship year is a dynamic and formative experience, not a static event,

and that interns and supervisors both must be proactive planners, coordinators, and shapers of the experience. Interns and supervisors will find this guide to be a critical support for planning and enacting a high-quality school psychology internship.
