Critically evaluate psychological and biological theories with reference to the relevant evidence base. Appreciate translation of clinical theory and empirical evaluation into clinical practice and treatment development. Syllabus.

PSYC3002 | Current issues in Clinical Psychology ...

Neurovirology is an interdisciplinary field

which represents a melding of clinical neuroscience, virology, immunology, and molecular biology. The main focus of the field is to study viruses capable of infecting the nervous system. In addition to this, the field studies the use of viruses to trace neuroanatomical pathways, for gene therapy, and to eliminate detrimental populations of neural cells.
