Untangle Network Security Framework. The Untangle Network Security Framework provides IT teams with the ability to ensure protection, monitoring and control for all devices, applications, and events, enforcing a consistent security posture across the entire digital attack surface—putting IT back in control of dispersed networks, hybrid cloud environments, and IoT and mobile devices.

Untangle takes the complexity out of network security.

I love this idea and also try to do my list of people I pray for before my feet hit the floor. Last year was praying to find a church and got a card saying a plant church was being started!! This has been such a blessing. I have been able to join with other prayer warriors several times a week!! So thankful and so blessed to be part of this ...
