Agile Modeling (AM) is a chaordic, practice-based methodology for effective modeling of software-based systems. The AM methodology is a collection of practices - guided by principles and values - that are meant to be applied by software professionals on a day-to-day basis.

Agile Modeling: Effective Practices for XP and RUP

Ambler presents Agile Modeling (AM) as a set of values, principles

and practices. AM's values are borrowed directly from those in XP: Communication, Simplicity, Feedback and Courage, with Ambler's addition of "humility". In my experience this additional value is a defining characteristic of an effective modeler and mentor.
