The Dark Road Ma Jian

Ma Jian's justified critique of China's horrific human rights violations in the name of policy is plain to see across his body of work, and the thread is sustained here. For his new novel, the extraordinarily disturbing and hope-bludgeoning, The Dark Road - a critique of the one child policy still fixed in place in China - the author took to the peasant waterways of the Yangtze River to research the plight of the women controlled by the state and the inescapably grim-fate of the floating diaspora to which they belong - a people ostensibly exiled within their own country and who contribute to over a third of its population.

"In 'The Dark Road,' as in "Beijing Coma," Mr. Ma is adept at jolting our senses, transporting us, with a few words about a pain, a taste or an odor, to those parts of China, and millions of people, who exist on the far fringes of the economic miracle.
