The Trolley Problem (when, in one version, a bystander diverts a racing trolley away from five people by choosing to pull a switch that instead diverts its path to a track that will kill only one innocent bystander) Cathcart first deconstructs the classic arguments from the world of philosophers (Hume, Bentham, Kant, Aquinas and others) using his trademarked humor and clarity..

The Trolley Problem, or Would You Throw the Fat Guy Off ...

The trolley problem is a thought experiment in ethics about a fictional scenario in which an onlooker has the choice to save 5 people in danger of being hit by a trolley, by diverting the trolley to kill just 1 person. The term is often used more loosely with regard to any choice that seemingly has a trade-off between what is good and what sacrifices are "acceptable," if at all.

The trolley problem is a series of thought experiments in ethics and psychology, involving stylized ethical dilemmas of whether to sacrifice one person to save a larger number. Opinions on the ethics of each scenario turn out to be sensitive to details of the story that may seem immaterial to the abstract dilemma. The question of formulating a general principle that can account for the differing moral intuitions in the different variants of the story was dubbed the "trolley problem" in a 1976 ph

Trolley problem - Wikipedia

The Trolley Problem sets up a moral dilemma in which one is to decide whether to steer the trolley in the first scenario, and whether to push the fat man off the footbridge in the second, so that one person dies as opposed to five. Those are the only options available.

The trolley dilemma: would you kill one person to save five?

The Trolley Problem is a moral paradox first introduced by Phillipa Foot 1967 and adapted by Judith Jarvis Thomson in 1985. Let’s look at it simply first. Pulling the lever would seem like the correct choice at first, since it only kills one person instead of five, but, if you do, you are directly causing that one man’s death, and if you don’t, you would have nothing to do with the five people’s deaths.

How would you solve the trolley problem? - Quora

From the Wikipedia page on the trolley problem: There is a runaway trolley barreling down the railway tracks. Ahead, on the tracks, there are five people tied up and unable to move. The trolley is headed straight for them. You are standing some distance off in the train yard, next to a lever. If you pull this lever, the trolley will switch to a different set of tracks.

A two-year-old's solution to the trolley problem - YouTube

The trolley problem is a question of human morality, and an example of a philosophical view called consequentialism. This view says that morality is defined by the consequences of an action, and that the consequences are all that matter. But exactly which consequences are allowable? Take the two examples that make up the trolley problem.

How the Trolley Problem Works | HowStuffWorks

Imagine you’re watching a runaway trolley barreling down the tracks, straight towards five workers. You happen to be standing next to a switch that will divert the trolley onto a second track. Here’s the problem: that track has a worker on it, too — but just one. What do you do?

Would you sacrifice one person to save five? - Eleanor ...

The Trolley Problem dives right into this core issue by describing a decision making scenario. Utilitarianism is damaged as an ethical theory because it oversimplifies this decision, and other decisions like it, strictly on outcome. The Trolley Problem says that there is a runaway train hurtling towards five workers on a railroad track.

Examples Of Utilitarianism And The Trolley Problem | Bartleby

The Trolley Problem the popular meme explained. Steer the trolley away, because the happiness and well-being of more people outweigh those of one. This answer corresponds with the ethical paradigm of UTILITARIANISM Utilitarianism according to John Stuart Mill.

The Trolley Problem | Utilitarianism

The latest example is in the ethical dilemma of the trolley problem - if you have no other other choice, do you kill one person or five? does it change if you know the people? would you sacrifice one to save five? etc. - where Michael would try to kill all six people if he could, and do it as brutally as possible.
