For the newly released book The Bestseller Code, Archer teamed up with Matthew Jockers, whose text-mining research has been profiled in the media and who has written a book called Text Analysis with R for Students of Literature. The two refined and focused the system to study about 5,000 books, and included a variety of both non-bestselling and modestly successful novels, plus a little more than five hundred New York Times bestsellers.

The Bestseller Code: Decoded - The Steve Laube Agency

It covers his heroic code-breaking efforts during the war, his computer designs and contributions to mathematical biology in the years following, and of course, the vicious persecution that befell him in the 1950s — when homosexual acts were still a crime punishable by English law.
