In statistics, we try to make sense of the world by collecting, organizing, analyzing, and presenting large amounts of data. For example, you may survey your friends about what tv show is most popular, but the small sample size will not give you an accurate idea of what ALL 6th graders like to watch. To do this you must survey a cross section of students from all around the country and all ...

The cumulative frequency for less than 6.1 minutes is 0.64. The answers to part f and part g are not exactly the same, because the normal distribution is only an approximation to the real one. The answers to part f and part g are close, because a normal distribution is an excellent approximation when the sample size is greater than 30.
