What Social Workers Need to Know

A Psychoanalytic Approach Routledge

Social work deals with the heavy end of human difficulties such as cruelty, self-destructiveness, and severe and enduring mental health problems. How do social workers make sense of the emotional difficulties which come with the realities of practice? Understanding our clients is the best way of dealing with complex situations and avoiding burnout and stress. The contributors to this book argue that psychoanalysis provides a theory of development and behaviour capable of formulating a realistic model for understanding emotional difficulties and disturbances in both clients and ourselves. The chapters demonstrate a way of thinking for the practitioner that can be used in all situations. The book examines in detail some of the difficult and disturbing conversations that social workers have with clients of all ages. It provides a psychoanalytic framework for understanding circumstances which may be puzzling, stressful or frightening, and a theory whose value for many social work problems is well underpinned by research evidence. Written by senior practitioners who are all still working in the front line, this book puts complex real life experiences into words, to help the social worker become a more effective practitioner.

Everything I Need to Know I Learned in the Twilight Zone

A Fifth-Dimension Guide to Life *Macmillan*
Can you live your life by what The Twilight Zone has to teach you? Yes, and maybe you should. The proof is in this lighthearted collection of life lessons, ground rules, inspirational thoughts, and stirring reminders found in Rod Serling's timeless fantasy series. Written by veteran TV critic, Mark Dawidziak, this unauthorized tribute is a celebration of the classic anthology show, but also, on another level, a kind of fifth-dimension self-help book, with each lesson supported by the morality tales told by Serling and his writers. The notion that "it's never too late to reinvent yourself" soars through "The Last Flight," in which a World War I flier who goes forward in time and gets the chance to trade cowardice for heroism. A visit from an angel blares out the wisdom of "follow your passion" in "A Passage for Trumpet." The meaning of "divided we fall" is driven home with dramatic results when neighbors suspect neighbors of being invading aliens in "The Monsters Are Due on Maple Street." The old maxim about never judging a book by its cover is given a tasty twist when an alien tome is translated in "To Serve Man."
