Pe Engineer

To become licensed, engineers must complete a four-year college degree, work under a Professional Engineer for at least four years, pass two intensive competency exams and earn a license from their state's licensure board. Then, to retain their licenses, PEs must continually maintain and improve their skills throughout their careers.

What is a PE? - National Society of Professional Engineers

The Principles and Practice of Engineering (PE) exam tests for a minimum level of competency in a particular engineering discipline. It is designed for engineers who have gained a minimum of four years' post-college work experience in their chosen engineering discipline. For exam-specific information, select your engineering discipline.

NCEES PE exam information

PE licensure is the engineering profession's highest standard of competence, a symbol of achievement and assurance of quality. NSPE provides its members, whether already licensed or soon-to-be licensed, with the information and resources they need to earn and maintain the respected PE seal. NSPE does not license PEs.
