Electricity generation - Generation of electricity ...

Electricity generation is the process of generating electric power from sources of primary energy. For utilities in the electric power industry, it is the stage prior to its delivery to end users or its storage. Electricity is not freely available in nature, so it must be "produced". Production is carried out in power stations. Electricity is most often generated at a power plant by electromechanical generators, primarily driven by heat engines fueled by combustion or nuclear fission but also by
