Portrait Photography Guide

One of the biggest portrait photography tips we can give you is to use natural light. Using natural light which enters through a window is a great way to get soft light to an indoor subject. This lighting costs nothing and is often overlooked as a viable source. The effect of the window on the outdoor light is the same as that of a softbox on a flash.

30 Self Portrait Photography Tips for Beginners

Portrait photography benefits from shooting raw even if it means a larger file size. If you plan on printing or enlarging the picture, shoot raw because it allows you to edit the file without compromising the original. JPEG is a compressed format, and you lose valuable image data.

10 Tips for Better Portrait Photography - BEART

Helene McGuire Family photography dates back to the first appearance of cameras. People want to immortalize their families and relatives for posterity, for record purpose, to create a keepsake, a token of love hanging in the home. 'The best thing about a picture is that it never changes, even when the people in it do.'

Family Photography | How To Take Stunning Family Portraits

First thing you need to do is to understand your camera settings for portrait photography. A professional DSLR camera has many options including shutter speed, exposure compensation, aperture, ISO, lens, etc. You should check the exposure and composition to make sure that the object is bright enough.

11 Most Useful Portrait Photography Tips for Beginners

In portrait photography, there are some standard guides for the 'crop', or 'frame' of a portrait. This is important, because the crop can affect the pose. The standard guides are: the headshot, head and shoulders shot, half body shot, three quarter body shot, full body shot, and a group photo. These are all pretty self-explanatory.
