Leonardo The Artist And The Man PDF

Bramly postulates that when the very young Leonardo first came to Verrochio's workshop, the first thing he saw was the master working on a problem that required a knowledge of mathematics, geometry, engineering and physics: The design and construction of an over six foot diameter bronze sphere with cross on top, weighing over a ton, which had to be transported from its place of casting and construction to the principal cathedral of Florence, lifted over 250 feet in the air, attached to the ...
