Innovation: Better Problem Solving with the SCAMPER Method. Linh Tran Friday 01

April 2016. Innovation is about improving existing processes. At its core SCAMPER is an easy to implement creative thinking and problem solving method that facilitates continuous improvement . There is a quote from Thomas Edison that goes “There’s a way to do it better – find it.”.

### **Innovation: Better Problem Solving with the SCAMPER Method**

Finding solutions is the end goal of any problem solving activity and whatever problem solving techniques you employ, organizational challenges can only be solved with an appropriate solution. A key stage for any problem solving model is to ensure that you

are first solving the right problem and have clarified it through the problem identification and problem analysis stages of the process.

### **35 problem solving techniques and activities to create ...**

The general problem-solving model can be described as involving the following steps:  
Identify the problem.  
Gather data/information.  
Clarify/diagnose the problem.  
Develop possible solutions.  
Analyse each possible solution.  
Implement and Evaluate. The creativity component becomes a dominant element when developing possible solutions (Step 4).

Solving organisational innovation problems. One of the most challenging and thrilling aspects of

reinvention, transformation and business game shifting is the opportunity it creates for continuous deep learning and change led organisational innovation. This in itself, often creates problems for some people, because it challenges their perceptions as to what these terms mean, what they involve, how they link to strategy, and how they get implemented.
