747 Guide

The Boeing 747 changed the aviation industry in many ways. An iconic aircraft, loved by many, it is sadly now being retied by many airlines. With the new 747-8, though, the 747 is not going anywhere soon. This guide takes a full look at this long-running “Queen of the Skies,” from its origins in the late 1960s up to the continuing production today. We will look at the many variants developed throughout this long history, as well as some that weren’t, and the airlines that have operated ...

Overview. 747 is mainly a close-quarter combat orientated map (although snipers may be present on the roof and the outside of the airport and plane). Thus, many players and bots will use the Leone 12 Gauge Super, Leone YG1265 Auto Shotgun, M249, Flashbangs, Submachine guns, and the Tactical shield. Sniper rifles are recommended when engaging enemies outside the plane since there is a lot of open space.

However, if you are discussing, for example, the historical context in which the episode originally aired, you should cite the full date. Because you are specifying the date of airing, you would then use WB Television Network (rather than Mutant Enemy), because it was the network (rather than the production company) that aired the episode on the date you're citing.
