key. The car detects the key inside the cabin and you push a button to start the engine. How does it work?

What is keyless ignition? | Parkers

Keyless theft (sometimes called relay theft) is when a vehicle that has a keyless entry and start system is stolen, exploiting the technology to access the car and drive it away. More and more cars are offered or fitted with keyless entry and start as standard, allowing you to unlock the car just by touching the door handle and start it just by pressing a button.

What is keyless theft and how can you prevent it? | Honest ...

Keyless car theft (aka Relay Theft) is where the signal from a key for a so-

called “Keyless entry” car is captured by somebody standing outside the victim’s house using a device. Step 1 – The device transmits the signal to somebody else standing by the victim’s car. Step 2 – This then fools the car into thinking the key is near it, and so it allows the doors to be opened and ignition to be started.

Prevent Keyless Car Theft (8 Quick Tips) & What Relay Theft is

A smart entry system is an electronic lock that controls access to a building or vehicle without using a traditional mechanical key. The term keyless entry system originally meant a lock controlled by a keypad located at or near the driver's door, which required entering a predetermined numeric code. Such systems now have a hidden touch-

activated keypad and are still available on certain Ford and Lincoln models. The term remote keyless system, also called keyless entry or remote central locking,
