What It Means to Believe and Why Our Convictions Are So Compelling *Prometheus Books*

An expert on the psychology of belief examines how our thoughts and feelings, actions and reactions, respond not to the world as it actually is but to the world as we believeit to be. This book explores the psychology of belief - how beliefs are formed, how they are influenced both by internal factors, such as perception, memory, reason, emotion, and prior beliefs, as well as external factors, such as experience, identification with a group, social pressure, and manipulation. It also reveals how vulnerable beliefs are to error, and how they can be held with great confidence even when factually false. The author, a social psychologist who specializes in the psychology of belief, elucidates how the brain and nervous system function to create the perceptions, memories, and emotions that shape belief. He explains how and why distorted perceptions, false memories, and inappropriate emotional reactions that sometimes lead us to embrace false beliefs are natural products of mental functioning. He also shows why it is so difficult to change our beliefs when they collide with contradictions. Covering a wide range -- from self-perception and the perceived validity of everyday experience to paranormal, religious, and even fatal beliefs--the book demonstrates how crucial beliefs are to molding our experience and why they have such a powerful hold on our behavior.

The New Intimacy

Discovering the Magic at the Heart of Your Differences *Hci*
Shows how to turn conflict and disappointment in a relationship into opportunities for learning, mutual growth, and intimacy

The Pentateuch and Historical Books of the Old Testament

Implications for Educationists *Createspace Independent Publishing Platform*
Christianity as a religion bases its teachings on the Bible. Though there exists several Christian denominations, all of them use the same Bible which has 66 books (39 in the Old Testament and 27 in the New Testament). Regarding the Old Testament, there are some teachings which Christians do not follow because when Jesus Christ started his Ministry in about AD 27, he amended some of those laws and teachings. For example he rejected divorce, revenge, killing, the laws on foods, etc, contrary to what the Old Testament teaches. Christians follow what Jesus amended because they believe that Jesus was and is still God's son, the Messiah who was sent on earth to liberate mankind. They also believe that Jesus is God. Whereas people of other faiths such as Islam do not accept that, they are free to believe what they think is right.

Grit

The Power of Passion and Perseverance *Simon and Schuster*
In this instant New York Times bestseller, Angela Duckworth shows anyone striving to succeed that the secret to outstanding achievement is not talent, but a special blend of passion and persistence she calls “grit.” “Inspiration for non-geniuses everywhere” (People). The daughter of a scientist who frequently noted her lack of “genius,” Angela Duckworth is now a celebrated researcher and professor. It was her early eye-opening stints in teaching, business consulting, and neuroscience that led to her hypothesis about what really drives success: not genius, but a unique combination of passion and long-term perseverance. In Grit, she takes us into the field to visit cadets struggling through their first days at West Point, teachers working in some of the toughest schools, and young finalists in the National Spelling Bee. She also mines fascinating insights from history and shows what can be gleaned from modern experiments in peak performance. Finally, she shares what she’s learned from interviewing dozens of high achievers—from JP Morgan CEO Jamie Dimon to New Yorker cartoon editor Bob Mankoff to Seattle Seahawks Coach Pete Carroll. “Duckworth’s ideas about the cultivation of tenacity have clearly changed some lives for the better” (The New York Times Book Review). Among Grit’s most valuable insights: any effort you make ultimately counts twice toward your goal; grit can be learned, regardless of IQ or circumstances; when it comes to child-rearing, neither a warm embrace nor high standards will work by themselves; how to trigger lifelong interest; the magic of the Hard Thing Rule; and so much more. Winningly personal, insightful, and even life-changing, Grit is a book about what goes through your head when you fall down, and how that—not talent or luck—makes all the difference. This is “a fascinating tour of the psychological research on success” (The Wall Street Journal).

Orientalism *Vintage*

More than three decades after its first publication, Edward Said's groundbreaking critique of the West's historical, cultural, and political perceptions of the East has become a modern classic. In this wide-ranging, intellectually vigorous study, Said traces the origins of "orientalism" to the centuries-long period during which Europe dominated the Middle and Near East and, from its position of power, defined "the orient" simply as "other than" the occident. This entrenched view continues to dominate western ideas and, because it does not allow the East to represent itself, prevents true understanding. Essential, and still eye-opening, *Orientalism* remains one of the most important books written about our divided world.

Her Hand in Marriage

Biblical Courtship in the Modern World *Canon Press & Book Service*

The modern dating system is bankrupt. It does not train young people to form a relationship but rather to form a series of relationships, hardening themselves to all but the current one. Recreational dating encourages emotional attachments without covenantal fences and makes a joke of a father's authority. The disrespect children have for their fathers in this area is an echo of the disrespect fathers have for their own office. Biblical courtship provides a wonderful freedom. It involves familial wisdom and godly protection. Grounded upon the involved authority of the father, courtship delights in its public connection to the lives of families. Sexual purity is a great inheritance for a marriage, and part of a father's job is to guarantee and protect that heritage. Biblical courtship is a humble affront to the sterility of modern relationships. And as a new generation rejoices in this ancient wisdom, the current waves of broken relationships will begin to recede.

Exploring Faith and Reason

The Reconciliation of Christianity and Biological Evolution *Dbg Publishing*

Have you ever wondered if it is possible to be a conservative evangelical Christian and also believe in biological evolution-believe that the Earth is 4.5 billion years old and that human beings share a common ancestor with not only chimpanzees, but also with mice and even earthworms? In *Exploring Faith and Reason*, you will find that it is not only possible, it is an essential element of how many Christians come to more fully appreciate the complexity and the great glory of God's creation. Of course many people-Christians and non-Christians alike-think that Christianity and evolution are opposing concepts. They perceive several specific points of conflict between them. Bruce Glass addresses each of these concerns by citing Scripture and the world's most respected theologians and by the application of reason. Revealed is a deeper and richer understanding of Biblical Scripture and its history. But most importantly, readers will gain a greater appreciation of the power and the capabilities of a living God that transcends space and time, as this insight is united with the findings of science. Kirkus Reviews described *Exploring Faith and Reason* this way: "Smart, well-informed... lucid, engaging... Glass delivers a superb exposition of Darwinian theory and a meticulous, sharply reasoned discussion of the evidence that supports it. His logic is impeccable when he insists that evolutionary theory does not rule out the existence of God." Tremper Longman III, Ph.D., Robert H. Gundry Professor of Biblical Studies at Westmont College said, "As a non-scientist, I found that *Exploring Faith and Reason* presents an accessible, fascinating, and compelling presentation of evolution. As a biblical scholar, I appreciate Glass' grasp of theological issues and the biblical text. His conclusion that evolution and Christianity are compatible is a crucial message for the church today." Peter Enns, Ph.D., Professor of Christian Studies at Eastern University said, "Glass has provided a thorough look at the evidence and the processes of evolution, along side a compelling case for its compatibility with Christianity. His theological analysis is very sound as he addresses several of the commonly perceived points of tension between the Christian faith and evolution. For a thorough understanding of these issues, this book is among the very best resources available." Reverend Jordan Ogden, Lead Pastor at Antioch Community Church in Dallas, said: "Mr. Glass tackles a historically controversial topic with finesse. Wherever one may be on the issue of evolution, Glass' superb scholarship and unbiased commentary on issues of faith does not disappoint." Reverend Dr. Kristin Huffman, Associate Pastor at Memorial Drive Presbyterian Church in Houston, said: "Bruce Glass has provided a thought provoking look at the most significant theological issues arising from the advent of evolutionary science. Whatever their conclusions, readers will find Mr. Glass' treatment a welcome reminder of the richness and depth of God's Word, as well as a fresh perspective on God's glorious creation." ForeWord Clarion Reviews described it as, "Well written, thoroughly researched, and honestly fair... The book's thorough and eminently readable scientific explanations provide general science readers with a lucid understanding of this complex subject." Reverend Michael Dowd, author of *Thank God for Evolution*, endorsed by six Nobel Prize-winning scientists and by religious leaders across the spectrum, said that, "In *Exploring Faith and Reason*. Bruce Glass has emerged as a fresh voice for the reconciliation of head and heart. Couched in the language and theology of conservative evangelical Christianity, Mr. Glass' book provides a welcomed bridge between an evidential worldview and traditional Christian conviction. Believers and non-believers alike will find much of value in these pages."
