Handbook of Sustainable Development

'This Handbook demonstrates the well-established body of thinking on sustainable development which now exists, and its tighter focus today on limits to current economic growth patterns. But while there have been lots of big global debates on planetary boundaries, and thresholds for critical resources, there has been little progress on the ground and in getting the politics right. Contributing ...

Sustainable Cities and Communities Design Handbook (SCCDH) was an exception. The topics of sustainable, smart, green, and healthy community development have been part of my lexicon since the 1990s. SCDH was published in 2010. Now it is almost a decade later (2017) for this second edition of SCDH.

Sustainable Cities and Communities Design Handbook ...

This handbook, a joint effort of the International Institute for Sustainable Development and the United Nations Environment Programme, is aimed mainly at those with some knowledge about trade, environment or development, but not expert on the intersection of the three. It is also a practical reference tool for policy-makers and practitioners.
