Active Learning In The Mathematics

Active Learning in the Math Classroom. Active learning encompasses many different things—from students taking ownership of their own learning and participating in activities that stimulate deeper thinking to movable classroom furniture and teachers embracing the role of facilitator. Students might learn through games, projects, debates, talking with peers, case studies, just-in-time teaching, or short demonstrations followed by class discussion.

Active Learning in the Math Classroom | Tech & Learning

So strong is the evidence supporting the positive effects of active learning techniques in postsecondary mathematics and science courses that Freeman, et.al, made the statement above in their 2014 Proceedings of the National Academy of Science (PNAS) article Active learning increases student performance in science, engineering, and mathematics. Yet faculty adoption of active learning strategies has become a bottleneck in post-secondary mathematics teaching advancement.
