Insight Selling Is The New Solution Selling

Solution selling is the process of selling the customer a solution to their problems as opposed to a product or service. The term is associated with the sales of products and services that can be used as the building blocks of a custom implementation. Solution selling is common in areas such as construction services, software and outsourcing sales.

The 7 Stages of the Solution Selling Process - Simplifiable

The solution selling process is exactly what it sounds like: selling a customer on a solution (your business or product) that helps them overcome a problem. A solution selling process differs from a more traditional sales process because, instead of just pushing a product, the seller focuses on a specific issue or problem the customer faces and suggests corresponding services or products to solve that issue.

The key components bundled with a solution sale generally consist of hardware, software, networking and storage technologies -- along with associated services. Those services can include upfront business and technical advisory services, technology implementation services, and post-implementation managed services and hosting. The role of advisory services in helping customers identify the business problem has created strong parallels between solution selling and consultative sales.
