The Forest Unseen

A Year's Watch in Nature *Penguin*

Finalist for the Pulitzer Prize and the PEN/E.O. Wilson Literary Science Writing Award "Injects much-needed vibrancy into the stuffy world of nature writing." —Outside, "The Outdoor Books That Shaped the Last Decade" The biologist and author of *Sounds Wild and Broken* combines elegant writing with scientific expertise to reveal the secret world hidden in a single square meter of old-growth forest In this wholly original book, biologist David Haskell uses a one-square-meter patch of old-growth Tennessee forest as a window onto the entire natural world. Visiting it almost daily for one year to trace nature's path through the seasons, he brings the forest and its inhabitants to vivid life. Each of this book's short chapters begins with a simple observation: a salamander scuttling across the leaf litter; the first blossom of spring wildflowers. From these, Haskell spins a brilliant web of biology and ecology, explaining the science that binds together the tiniest microbes and the largest mammals and describing the ecosystems that have cycled for thousands-sometimes millions-of years. Each visit to the forest presents a nature story in miniature as Haskell elegantly teases out the intricate relationships that order the creatures and plants that call it home. Written with remarkable grace and empathy, *The Forest Unseen* is a grand tour of nature in all its profundity. Haskell is a perfect guide into the world that exists beneath our feet and beyond our backyards.

The Light of Days

The Untold Story of Women Resistance Fighters in Hitler's Ghettos *HarperCollins*

THE INSTANT NEW YORK TIMES BESTSELLER! Also on the USA Today, Washington Post, Boston Globe, Globe and Mail, Publishers Weekly, and Indie bestseller lists. One of the most important stories of World War II, already optioned by Steven Spielberg for a major motion picture: a spectacular, searing history that brings to light the extraordinary accomplishments of brave Jewish women who became resistance fighters—a group of unknown heroes whose exploits have never been chronicled in full, until now. Witnesses to the brutal murder of their families and neighbors and the violent destruction of their communities, a cadre of Jewish women in Poland—some still in their teens—helped transform the Jewish youth groups into resistance

cells to fight the Nazis. With courage, guile, and nerves of steel, these "ghetto girls" paid off Gestapo guards, hid revolvers in loaves of bread and jars of marmalade, and helped build systems of underground bunkers. They flirted with German soldiers, bribed them with wine, whiskey, and home cooking, used their Aryan looks to seduce them, and shot and killed them. They bombed German train lines and blew up a town's water supply. They also nursed the sick, taught children, and hid families. Yet the exploits of these courageous resistance fighters have remained virtually unknown. As propulsive and thrilling as *Hidden Figures*, *In the Garden of Beasts*, and *Band of Brothers*, *The Light of Days* at last tells the true story of these incredible women whose courageous yet little-known feats have been eclipsed by time. Judy Batalion—the granddaughter of Polish Holocaust survivors—takes us back to 1939 and introduces us to Renia Kukielka, a weapons smuggler and messenger who risked death traveling across occupied Poland on foot and by train. Joining Renia are other women who served as couriers, armed fighters, intelligence agents, and saboteurs, all who put their lives in mortal danger to carry out their missions. Batalion follows these women through the savage destruction of the ghettos, arrest and internment in Gestapo prisons and concentration camps, and for a lucky few—like Renia, who orchestrated her own audacious escape from a brutal Nazi jail—into the late 20th century and beyond. Powerful and inspiring, featuring twenty black-and-white photographs, *The Light of Days* is an unforgettable true tale of war, the fight for freedom, exceptional bravery, female friendship, and survival in the face of staggering odds. NPR's Best Books of 2021 National Jewish Book Award, 2021 Canadian Jewish Literary Award, 2021

Into the Forest *Dial Press*

NOW A MAJOR MOTION PICTURE • Set in the near-future, *Into the Forest* is a powerfully imagined novel that focuses on the relationship between two teenage sisters living alone in their Northern California forest home. Over 30 miles from the nearest town, and several miles away from their nearest neighbor, Nell and Eva struggle to survive as society begins to decay and collapse around them. No single event precedes society's fall. There is talk of a war overseas and upheaval in Congress, but it still comes as a shock when the electricity runs out and gas is nowhere to be found. The sisters consume the resources left in the house, waiting for the power to return. Their arrival into adulthood, however, forces them to reexamine their place in the world and their relationship to the land and each other. [A] fine first novel.”—John Keeble, author of *Yellowfish*

A breaking point in an already fractured marriage, Viola's abduction causes Ellis to disappear as well--into grief, guilt, and addiction. Convinced she can only do more harm to her family, Ellis leaves her husband and young sons, burying her desperate ache for her children deeper with every step into the mountain wildernesses she treks alone. In a remote area of Washington, a young girl named Raven keeps secrets inside, too. She must never speak to outsiders about how her mother makes miracles spring from the earth, or about her father, whose mysterious presence sometimes frightens her. Raven spends her days learning how to use her rare gifts--and more important, how to hide them. With each lesson comes a warning of what dangers lie in the world beyond her isolated haven. But despite her mother's cautions, Raven finds herself longing for something more. The Forest

A Novel *Ballantine Books*

NATIONAL BESTSELLER • "Rutherford brings England's New Forest to life" (The Seattle Times) in this companion to the critically acclaimed *Sarum* From the time of the Norman Conquest to the present day, the New Forest, along England's southern coast, has remained an almost mythical place. It is here that Saxon and Norman kings rode forth with their hunting parties, and where William the Conqueror's son Rufus was mysteriously killed. The mighty oaks of the forest were used to build the ships for Admiral Nelson's navy, and the fishermen who lived in Christchurch and Lymington helped Sir Francis Drake fight off the Spanish Armada. The New Forest is the perfect backdrop for the families who people this epic story. The feuds, wars, loyalties, and passions of many hundreds of years reach their climax in a crime that shatters the decorous society of Bath in the days of Jane Austen, whose family lived on the edge of the Forest. Edward Rutherford is a master storyteller whose sense of place and character—both fictional and historical—is at its most vibrant in *The Forest*. "As entertaining as *Sarum* and Rutherford's other sweeping novel of British history, *London*."—The Boston

Thirty-Two Words for Field

Lost Words of the Irish Landscape *Gill & Macmillan Ltd*

The Irish language has thirty-two words for field. Among them are: Geamhar - a field of corn-grass Tuar - a field for cattle at night Réidhleán - a field for games or dancing Cathairín - a field with a fairy-dwelling in it The richness of a language closely tied to the natural landscape offered our ancestors a more magical way of seeing the world. Before we cast old words aside, let us consider the sublime beauty and profound oddness of the ancient tongue that has been spoken on this island for almost 3,000 years. In *Thirty-Two Words for Field*, Manchán Magan meditates on these words - and the nuances of a way of life that is disappearing with them.

THE TREES *Knopf*

"They moved along in the bobbing, springy gait of a family that followed the woods as some families follow the sea." In that first sentence Conrad Richter sets the mood of this magnificent epic of the American wilderness. Toward the close of the eighteenth century the land west of the Alleghenies and north of the Ohio river was an unbroken sea of trees. Beneath them the forest trails were dark, silent, and lonely, brightened only by a few lost beams of sunlight. Here the Lucketts, a wild, woodsfaring family, lived

their roaming life, pushing ever westward as the frontier advanced and as new settlements threatened their isolation. Richter has written, not a historical novel, of which there are so many, but a novel of authentic early American life, of which there are so few. It is the primitive story of Worth Lockett, the hunter, and of Jary, his woman; of Genny, Wyitt, Achsa, and Sulie, their woods-wild children; of the bound boy and the Solitary and Jake Tench; but principally of the oldest girl, Sayward Lockett, whos people as far back as she knew had always been hunters and gunsmiths to hunters, but who, through the quiet, growing, and yet tragic oppression of the trees, turns her back at last on her life as a hunter's child and becomes a tiller of the soil. This novel of great lyrical beauty and high excitement tells the story of the transition of American pioneers from the ways of the wilderness to the ways of civilization. Here is the true American epic. Here is the raw adventure, swift and cruel in its episodes; but here too is the poetry of loneliness. Here is a portrait of frontier life as it really must have seemed to the pioneers. Here in short is a masterpiece by the man who gave us *The Sea of Grass*.

Wilding

Returning Nature to Our Farm *New York Review of Books*

An inspiring story about what happens when 3,500 acres of land, farmed for centuries, is left to return to the wild, and about the wilder, richer future a natural landscape can bring. For years Charlie Burrell and his wife, Isabella Tree, farmed Knepp Castle Estate and struggled to turn a profit. By 2000, with the farm facing bankruptcy, they decided to try something radical. They would restore Knepp's 3,500 acres to the wild. Using herds of free-roaming animals to mimic the actions of the megafauna of the past, they hoped to bring nature back to their depleted land. But what would the neighbors say, in the manicured countryside of modern England where a blade of grass out of place is considered an affront? In the face of considerable opposition the couple persisted with their experiment and soon witnessed an extraordinary change. New life flooded into Knepp, now a breeding hotspot for rare and threatened species like turtle doves, peregrine falcons, and purple emperor butterflies. The fabled English nightingale sings again. At a time of looming environmental disaster, *Wilding* is an inspiring story of a farm, a couple, and a community transformed. Isabella Tree's wonderful book brings together science, natural history, a fair bit of drama, and—ultimately—hope.
