Major themes in Twentieth-Century Analytic Philosophy include: · the innovation of mathematical logic by Gottlob Frege at the close of the nineteenth century and its independent development by Bertrand Russell; · the impact of advancements in science on the world of philosophy and its importance for understanding such doctrines as logical positivism, philosophy of language, philosophy of ...

Twentieth-Century Analytic Philosophy on JSTOR

The 1950s and 1960s witnessed the growing predominance of what became known as “analytical” or “analytic” philosophy in the Anglophone world, as well as the initial use of the label of “continental” philosophy to group together a wide variety of distinct non-analytic movements, including those of phenomenology, existentialism, Marxism, hermeneutics, critical theory, and structuralism. Somewhat ironically, this moment of the growing predominance of philosophical approaches that ...

Twentieth-century philosophy - Routledge Encyclopedia of ...

This pattern, it is argued, helps to explain the growing dominance of analytic philosophy during the twentieth century and allows characterising this form of philosophy as, at least during 1925-1969, a sectarian form of critical philosophy. Twentieth-Century Analytic Philosophy: Stroll, Avrum ...

Analytic philosophy appeared in Argentina in the mid-twentieth century in two very different areas: (1) philosophy of math and science and (2) philosophy of law. A number of mathematicians and physicists interested in the foundations of mathematics and the natural sciences introduced the logical developments of the early twentieth century and the ideas of the logical positivists of the Vienna Circle.
