... economies, and increasing returns to scale has focused on. the dynamic sources and operationalization of uneven regional. growth, broadly known as 'trickling-down' and 'polarization ...

(PDF) The strategy of economic development

Categories of economic development strategy include monetary strategy, fiscal strategy, and trade or commercial strategy. Each strategy is generally used to address a prescribed group of economic problems or symptoms, but some strategies fall into more than one category. In general, the government uses the various types of economic development strategies to address

undesirable economic conditions like a listless economy or excessive price inflation.

What Are the Different Types of Economic Development Strategy?

The Comprehensive Economic Development Strategy (CEDS) contributes to effective economic development in America's communities and regions through a locally-based, regionally-driven economic development planning process. Economic development planning – as implemented through the CEDS – is not only a cornerstone of the U.S. Economic Development Administration's (EDA) programs, but successfully serves as a means to engage community leaders, leverage the involvement of the private sector ...

Comprehensive Economic Development Strategy (CEDS) Content ...

Economic development strategic planning is critical to shaping a vibrant and economically competitive environment for the future of a community or region. Often, effective strategy development is as much about understanding what the organization will not do as what it will do.

Municipal economic development strategic planning ...

Successful economic development strategies coordinate all three types of investment. This report shows governments how to better unify these strategies, track results, and direct resources to programs that achieve desired outcomes. The Synthetic Control Method as a Tool to Understand State Policy

The Draft Strategic Economic Development Plan is now available to provide the City of Dallas with a road map to leverage its considerable assets and help us reach our economic growth and diversification goals. It also provides a competitive assessment of our community and identifies target industries that have the greatest potential to foster strong economic growth in the future.

Strategic Economic Development Plan | City of Dallas ...

Economic development is the process by which emerging economies become advanced economies. In other words, the process by which countries with low living standards become nations with high living standards. Economic development also refers to the process by which the overall health, well-being, and academic level the general population improves.

What is economic development? Definition and examples ...

MOUNTAIN VIEW COUNTY - County council has been given an update on work to promote the municipality's economic development strategy. The review came during a recent regularly scheduled council meeting, held by teleconference. The strategy was approved in 2018, with administration then developing an internal action plan to continue to progress the strategy forward.

Council updated on economic development strategy ...

Sustainable Economic Development Strategies generate substantial economic and employment growth and

sustainable business and community development by demonstrating that innovation, efficiency, and conservation in the use and reuse of all natural and human resources is the best way to increase jobs, incomes, productivity, and competitiveness.

Sustainable Economic Development Strategies

Economic development, the process whereby simple, low-income national economies are transformed into modern industrial economies. Although the term is sometimes used as a synonym for economic growth, generally it is employed to describe a change in a country's economy involving qualitative as well as quantitative improvements.

Economic development | Britannica

In the economic study of the public sector, economic and social development is the process by which the economic well-being and quality of life of a nation, region, local community, or an individual are improved according to targeted goals and objectives.. The term has been used frequently in the 20th and 21st centuries, but the concept has existed in the West for far longer.

Economic development - Wikipedia
