It seemed to me that learning about the quality of evidence and drawing appropriate conclusions from scientific research were central to teaching critical thinking (CT) in psychology. In this article, I have attempted to provide guidelines to psychology instructors on how to teach CT, describing techniques I developed over 20 years of teaching.

A Brief Guide for Teaching and Assessing Critical Thinking ...

Critical thinking. Critical thinking requires skill at analyzing the reliability and validity of information, as well as the attitude or disposition to do so. The skill and attitude may be displayed with regard to a particular subject matter or topic, but in principle it can occur in any realm of knowledge (Halpern, 2003; Williams, Oliver, & Stockade, 2004).

Teaching Critical Thinking in Psychology - Dana S Dunn ...

Critical thinking is a higher-order thinking skill which mainly consists of evaluating arguments. It is a purposeful, self-regulatory judgment which results in interpretation, analysis, evaluation, and inference, as well as explanations of the evidential, conceptual, methodological, or contextual considerations upon which the judgment is based.

"Teaching Critical Thinking Online" by Astleitner, Hermann ...

Instead of teaching generic critical-thinking skills, we ought to focus on subject-specific critical-thinking, which

can broaden a student's individual subject knowledge, one researcher argues.

Why we should stop teaching generalized critical thinking ...

Higher-order thinking involves the learning of complex judgmental skills such as critical thinking and problem solving. Higher-order thinking is more difficult to learn or teach but also more valuable because such skills are more likely to be usable in novel situations (i.e., situations other than those in which the skill was learned).

Higher-order thinking - Wikipedia

How to teach critical thinking. Daniel Willingham is a Professor of Psychology at the University of Virginia. His paper

explores the ongoing debate over how critical thinking skills are developed and taught. He also outlines a plan for teaching specific critical thinking skills. Willingham argues that while there is plenty of evidence to support explicit instruction of critical thinking skills, the evidence for how well critical thinking skills transfer from one problem to another is mixed.

Given research in cognitive psychology, some educators believe that schools should focus more on teaching their students critical thinking skills, intellectual standards, and cultivating intellectual traits (such as intellectual humility, intellectual empathy, intellectual integrity, and fair-mindedness) than on memorizing facts by rote learning.

Critical thinking | Psychology Wiki | Fandom

From primary to post-secondary school, critical thinking (CT) is an oft cited focus or key competency (e.g., Alberta Education, 2015; Australian Curriculum Assessment and Reporting Authority, n.d.; California Department of Education, 2014; DeAngelo et al., 2009).

Unfortunately, the definition of CT has become so broad that it can encompass nearly anything and everything (e.g.,

Frontiers | Redefining Critical Thinking: Teaching ...

Although critical thinking is very difficult to teach, and often does not transfer across domains (Halpern, 1998), there is incremental value in providing multiple opportunities to practice critical thinking while learning new scientific content (Willingham, 2007). My position is not restricted to the use of creationism to teach critical thinking.
