The New Psychology Of Leadership

"The New Psychology of Leadership" advances the argument that leadership is a group process grounded in the creation, management and control of group identity - a shared sense of 'us'. Written in an accessible and engaging manner, "The New Psychology of Leadership" discusses multiple aspects of leadership.

The New Psychology of Leadership: Summary & Review

This book fills this gap by presenting a new psychology of leadership that is the result of two decades

of research inspired by social identity and self-categorization theories. The book argues that to succeed, leaders need to create, champion, and embed a group identity in order to cultivate an understanding of 'us' of which they themselves are representative.

The New Psychology of Leadership

Leadership is a process laden with group identities (Haslam et al., 2011), making its scope of understanding go beyond the established understanding and politically more connective and diversity...

Given that good leadership depends on constituent cooperation and support, this new psychology of leadership negates the notion that leadership is exclusively a top-down process. In fact, it...

The New Psychology of Leadership - Scientific American

Essentially, "The New Psychology of Leadership" progresses through a systematic and very well-researched idea of what, precisely a leader does and how he functions on a social level. Considering that we are now in an age in which "social" is an important buzzword in the corporate as well as political and private

realms, this book has much to offer in terms of rethinking old ideas.

Guest Post: The New Psychology of Leadership

The new psychology of leadership: identity, influence and power. Turner, John C., 1947-. This work gives an overview of the new understanding of leadership that has emerged in social and organisational psychology as part of the development of self-categorisation and social identity theories. The authors advance the argument that leadership is a group process grounded in the creation and control of group identity.

The New Psychology of Strategic Leadership

The New Psychology of Leadership, raises three questions. What do we mean by leadership? What do we mean by the psychology of

leadership? And what is new about our approach to the psychology of leadership? It is best to be clear about these matters before we start on the body of the book. What is leadership?

New Psychology of Leadership - Apps on Google Play

Leader-thinking should embrace the idea that leaders' psychology is shaped and transformed by their engagement in shared group activity; and furthermore that it is context-sensitive. Leadership is always predicated on followship.
