Careers Ecosystem Ecologist

As an ecologist, you'll be concerned with ecosystems - the abundance and distribution of organisms (people, plants, animals), and the relationships between organisms and their environment. In this role, you'll usually specialise in a particular area, such as freshwater, marine, terrestrial, fauna or flora, and carry out a range of tasks relating to that area.

Ecologist job profile | Prospects.ac.uk

Ecologists study the interrelationships between organisms and their environments. For example, they may research how the creatures in forests, deserts, wetlands, or other ecosystems interact with each other, as well as their environments. Some may study how the removal or return of apex predators like wolves affect other species in the area, or the strengths and weaknesses of invasive species compared with native species.

With an ecology career, your office could be the great outdoors. That’s right. Your education can help you avoid sitting at a desk in a cubicle under fluorescent lights for the next 50 years. Pursuing an ecology career can put you in a job that you love – and one that does good in the world. [...]

5 Ecology Careers to Get You Outside - STEMJobs

Before everything, we need to understand what is an ecologist. Biologists study the interplay between organisms and their environment. For example, they can study the environment of forests, deserts, wetlands, or other ecosystems as they interact with each other. Some may study how removing or returning predators to the top such as wolves affects other species in the region, or the strengths and weaknesses of invasive species compared with native species.

What is an Ecologist - Salary | Career | Job Description ...

As an ecologist, you are responsible for helping further the understanding of how natural and human changes to the environment can influence ecosystems. Working as an ecologist will allow you to interpret and analyse the cause and effect relationships between species and habitats. You’ll find yourself conducting surveys to monitor and record correlations, carrying out field tests and filing data-heavy reports, on behalf of companies, governments or not-for-profit environmental groups.

Job Description: Ecologist

As a restoration ecologist, you may work for the government, private consulting companies or environmental organizations, filling positions like government regulatory officer, ecological restoration contractor or private land manager. A bachelor's degree is typically necessary to become a restoration ecologist.
