Murach's Java Programming (5 th Edition) This is our latest Java book that teaches the essentials you need to know to develop any Java program. It covers up through Java 9, but because Java is a very stable language that's backwards-compatible, this edition will work for you whether you're using an earlier or a subsequent release. It teaches how to program Java using an IDE; the book itself illustrates the use of NetBeans, but all the

supporting files are available for Eclipse too.
