Saturated Solution Definition For Kids

A saturated solution is a chemical solution containing the maximum concentration of a solute dissolved in the solvent. The additional solute will not dissolve in a saturated solution. The

amount of solute that can be dissolved in a solvent to form a saturated solution depends on a variety of factors. The most important factors are:

Saturated Solution Definition and Examples

Saturated Solution: Equal parts solute and solvent ; Solvent: Characteristically solid, gas or liquid (usually liquid) Universal Solvent: Water is considered to be the universal solvent

Saturated Solution: Definition & Examples - Video & Lesson ...

A saturated solution is a solution in which there is so much solute that if there was any more, it would not dissolve. When a saturated solution is placed in contact with additional solute, solute neither dissolves nor is deposited. When water, or any solvent, has dissolved as much of any substance as it can, it is a saturated solution.

Saturated solution definition and meaning | Collins ...

When the amount of solute in a solvent is so high that not all of it will dissolve, that solution is saturated. In a saturated solution, the solute that does not dissolve will be visible. To unlock...

Concentration & Saturation Lesson for Kids: Definitions ...

A solution in which the maximum amount of solvent has been dissolved. Any more solute added will sit as crystals on the bottom of the container.

saturated solution definition - Northwestern University

The term saturated solution is used in chemistry to define a solution in which no more solute can be dissolved in the solvent. It is understood that saturation of the solution has been achieved when any additional substance that is added results in a solid precipitate or is let off as a gas. Advertisement.

Examples of Saturated Solution

Saturated definition is - full of moisture : made thoroughly wet. How to use saturated in a sentence.

Saturated | Definition of Saturated by Merriam-Webster

When a solution reaches the point where it cannot dissolve any more solute it is considered "saturated." If a saturated solution loses some solvent, then solid crystals of the solute will start to form. This is what happens when water evaporates and salt crystals begin to form. Concentration The concentration of a solution is the proportion of the solute to solvent. If there is a lot of solute in a solution, then it is "concentrated".

Saturated, Unsaturated, and Superstaturated Solutions - YouTube

A supersaturated solution is a solution with more dissolved solute than the solvent would normally dissolve in its current conditions. Supersaturation is achieved by dissolving a solute in one set of conditions, then transferring it to other conditions without triggering any release of the solute.

What Is a Supersaturated Solution?

Search the meaning and definition of over one hundred thousand words!

Kids.Net.Au - Dictionary > Definition: saturated

A saturated solution contains more solute per volume of solvent than an unsaturated solution. The solute has dissolved until no more can, leaving undissolved matter in the solution. Usually, the undissolved material is denser than the solution and sinks to the bottom of the container.

What Is an Unsaturated Solution in Chemistry?

saturated solution The uranium solution was a twofold dilution of

a saturated solution. From the Cambridge English Corpus The stain was prepared as a saturated solution in pure isopropanol.

SATURATED SOLUTION - Cambridge Dictionary

: containing an amount of a substance greater than that required for saturation as a result of having been cooled from a higher temperature to a temperature below that at which saturation occurs a supersaturated solution air supersaturated with water vapor Examples of supersaturated in a Sentence

Supersaturated | Definition of Supersaturated by Merriam

...

Compounds in which all the units of affinity of the contained elements are engaged are said to be saturated, whilst those in which the affinities of the contained elements are not all engaged by other elements are said to be unsaturated.

Use saturated in a sentence | saturated sentence examples

According to the literature data, the pH of the saturated solution of Ca [(OH).sub.2] is about 12.4, used as a standard of highly alkaline pH, which well corresponds to the results of the present research. Modelling the solubility of sparingly soluble compounds depending on their particles size
